## 16th Section Lease Procedures Unleash Grand Jury Wrath

Charges of mismanagement of 16th Section lands were leveled this week by the Hancock County Grand Jury against the county supervisors, school superintendent, and county school board.

After receiving censure from the jury for their lack of corrective action on the subject, the superintendent of education and members of both boards were required, under oath, to move towards reforming all administrative procedure for such lands.

In a prefix to their report, the jury said, "...this grand jury wishes to inform the people of Hancock County that in each township a section of land is reserved for the maintenance of the county schools.

"This land consists of over 8000 acres for the county and represents a considerable income for the schools if the administration of this land is conducted in a businesslike manner...."

The jury then went on to state, "We find that the management of 16th section school lands has been conducted in a very poor businesslike manner.

"The blame for poor management must be attributed to the Board of Supervisors, Board of Education, and the Superintendent of Education, since all are responsible for the administration of the 16th Section lands and therefore are responsible for its management.

The jury then spelled out the direct blame and in so doing enjoined a host of other criticisms leveled against both the supervisors and the school board over the last several months.

## McKenna to run for mayor

John K. McKenna of 512 Highland Drive, Bay St. Louis has announced his candidacy as a Democrat for the office of Mayor.

McKenna, 64, is a retired General Electric Co. official and was general chairman of the Bay St. Louis Citizens Committee which was successful in seeking the referendum which resulted in Bay St. Louis becoming the first city in Mississippi to change from the three man commission form of government and vote for the Mayor-Council type of government.

He was manager of the HUD program in Bay St. Louis known as "Operation Uptown," an urban renewal program to rehabilitate substandard housing and public works projects after hurricane Camille's 1969 devastation.

He is a member of Hancock County Chamber of Commerce, Gov. Finch's MIDAS Committee, chairman of Hancock County Economic Development Committee, Past Executive Director, OLG Carnival Association, General Chairman, Hancock County-Bay St. Louis-Waveland Bicentennial Commission, OLG Parish Council, Bay-Waveland Yacht Club, Pass Christian Isles Golf Club, National Association of Purchasing Managers and American Legion.

His experience includes thirty-three years of managerial assignments in Military, Commercial and semi-mass production operations.

He is a graduate of LaSalle Institute and Franklin and Marshall College. A U.S. Navy veteran of World War II, he and his wife Olive (Ollie) have resided in Bay St. Louis fourteen years, have

(Continued on Page 4A)

With leases stretching between 10 years and 99 years, with the average being 25 years, the sums received by the county for the leases have been traditionally small.

"That both boards and the superintendent of education work in harmony and in the best interest of the taxpayers and voters of this county."

A forestry management program entered into relatively recently with the Mississippi Forestry Commission alleviated the situation to some extent but the leasing of farm and other cleared lands, not covered under the terms of the forestry lease, are still being managed in much controversy.

Last week Terrell Randolph, superintendent of education, said he hoped the board would see its way clear to adopting new leasing guidelines similar to those suggested by the Mississippi Economic Council.

Randolph was admonished by the grand jury for his failure to make an issue out of the mismanagement

"...and therefore cannot be absolved of responsibility for 16th Section lands."

The report states "...we have had the board of supervisors, superintendent of education, before this body (the grand jury) and have censured all concerned and made recommendations for

## Fire departments to receive state funds

State Insurance Commissioner George Dale has been notified that Bay St. Louis will receive \$20,766.97 from the state auditor's office after the first of April for support of its local fire department.

Dale stated, "This is a portion of the \$28.3 million in premium taxes collected by the insurance department in February which has approximately \$6.1 million designated for support of local and volunteer fire departments."

Mississippi law provides that \$4.5 million will be distributed to municipal governments for operation of local fire departments, and \$1.6 million will be distributed to county governments for

corrections...."

These recommendations made by the jury include: "That the full board of supervisors adhere to the law and assume its full responsibility for the guidelines governing the administration of 16th Section lands;

"That the board of supervisors review the Mississippi Economic Council recommendations for the administration of 16th section lands and formulate a similar plan with appraisal and fixed fees based on the appraisal as an important part of the plan;

"That the board of education be charged with the actual leasing of the 16th section lands and the collection of revenues in accordance with the guidelines;

"That lands to be leased be publicized in local newspapers;

"That both boards and the superintendent of education work in harmony and in the best interest of the taxpayers and voters of this county."

Further, and adding punch to an already loaded report, the grand jury recommended that it's July counterpart follow-up on the 16th sectional

## Seymour to councilman at large in Bay

WILLIAM SEYMOUR

Mr. Wilmer E. Seymour has announced his candidacy as a Democrat for the post of councilman at large in the forthcoming municipal elections. Mr. Seymour, a resident of Rt. 2, Box 24 E Old Spanish Trail, Bay St. Louis, has been a coach and school teacher in the Bay St. Louis School System for the past 21 years. He is married to the former Mary Francis Ladner and they have three children Steve, Gina, and Will.

Mr. Seymour has received a Bachelors Degree and a Masters Degree from the University of Southern Mississippi. He recently completed work for his AAA Teaching Certificate. He is presently employed as the Drug Specialist for the schools in the municipal area.

(Continued on Page 4A)

operation of county volunteer fire departments dispersed on the basis of population.

"The quality of fire protection in a locality has a direct effect on premiums a person pays for fire insurance on his home." Dale noted. "It is our hope these funds will assist the respective areas improve their fire rating and result in a substantial savings to homeowners in reduced fire insurance rates."

Other areas to receive funds are: Hancock Co.: \$11,265.91; Waveland: \$12,516.45.

MRS. RUTH SUMMERS

## Mrs. Summers Announces for District Three

Mrs. Ruth M. Summers, 39, has announced her candidacy to the Bay St. Louis city council in the Democratic primary set for May 10. She is seeking election from District Three.

A life-long resident of Bay St. Louis, the candidate is married to Robert L. Summers and the couple have six daughters, Mrs. Sandra Ladner, Mrs. Diane Kennedy, Tracy Susan, Debra, and Beverly; and two sons, Douglas and Robert. They reside at 520 St. John St.

Mrs. Summers attended Bay St. Louis Public Schools and Jeff Davis Junior College. Formerly associated with the Hancock County Retarded Children's Association, she is presently employed by Diann's Hair Styling of Bay St. Louis.

A member of Eastern Star, Order of the Amaranth, she is also active in the Woodmen of the World and the Tiger Booster Club.

FIRE HALL FOUNDATION for new building to north of Louisville and Nashville Railroad tracks off St. Joseph St. in Waveland is to left beyond fence. Metal for building is being stored inside perimeter of city's sewage disposal plant from which photograph was taken.

## Tourist Season Hits Waveland, City Spruces, Builds Fire Hall

The City of Waveland is girding for an active tourist season.

Buccaneer State Park is already filling each weekend as well as maintaining a high content of early season campers utilizing the facility for their annual holidays. This influx is in addition to the annual swelling of population experienced by the city as summer homes are once again activated.

Two major paving undertakings, needed to smooth tourist and residential movement alike were recently undertaken.

Completed in conjunction with the supervisors were Nicholson Ave., from Old Spanish Trail to the Beach, and Central Ave., from Nicholson to Coleman.

Foundations were substantially complete this week on the new fire station north of the tracks, being built off St. Joseph St., adjacent to the city's sewage treatment facility.

Being constructed at a cost of some \$21,630, by J. W. Puckett and Co. of Gulfport, the building's need has long since been felt by Waveland city council

## State's First Mayor-Council Government Sees 27 Qualify

Bay St. Louis' first mayor-council form of government had attracted entry from some 27 candidates by deadline date April 10.

With the door still open for the filing by independents, speculation concerning individual commitment is still running high throughout the city.

The government form was voted in by the city's electorate electors on March 19, to replace the existing three-man commission-council form.

## Benvenuti announces candidacy

Peter J. Benvenuti has announced that he will be a candidate for City Councilman of Ward 1 of Bay St. Louis. Benvenuti, 52, residing at 114 Felicity Street, Bay St. Louis, is a life long resident.

He is married to the former Betty Beyer of Bay St. Louis and they are the parents of eight children and one grandson.

A graduate of St. Stanislaus, he retired from the U.S. Marine Corps as a Master Sergeant after 20 years service, having served in the South Pacific, Japan, Korea and various duty stations on the East and West coasts as an Administrative Chief. His last duty station prior to his retirement was assistant to the Director of the Personnel Procurement at the Eighth Marine Corps Reserve and Recruit

## Southern Airways Buying

## Planes To Serve Line's

Southern Airways, Inc., announced in its 1976 Annual Report, released today, that the airline will buy a fleet of Metro II turboprop aircraft to serve small and intermediate cities on the airline's 14-state route system.

According to the Report, 18-passenger, 300-mile-an-hour Swearingen Aviation Corp. aircraft have been chosen as a replacement for Southern's Martin 404 aircraft.

For more than three years, Southern has been phasing out its piston fleet. During recent months the airline has been considering replacement options.

Initially, Southern will buy seven Metro IIs, the first to be delivered in June, with service

to start in August.

More than 88 percent of Southern's passengers are served by 100- and 75-passenger DC9s. The Metro II, according to the Report, is expected to "provide a frequent pattern of service to ensure community development" in cities now served by piston aircraft.

Southern declined comment on schedules, frequency and development plans, saying only that the new equipment will offer a high level of service than now is available in some smaller cities.

The Report said the purchase is subject to arranging bank financing for the \$7,750,000 Metro II fleet

## Health Tip

### From AMA

## TETANUS

With the advent of the spring season of 1977 most of us are beginning to get out of doors again. There are gardens and lawns that need work and outdoor chores of all sorts that have accumulated during the winter.

With the return of outdoor activities comes once again the hazard of minor accidents, cuts and scratches. Most often these aren't serious and will heal quickly if properly cleaned and protected.

The American Medical Association cautions that sometimes these scratches can be more serious. Sometimes they are the channel through which you could get tetanus, commonly called lockjaw.

Tetanus-producing spores lie dormant in the soil of your garden, the dirt of your garage. These spores can infect you through the tiniest wound - a pin scratch, a bee sting or a small cut.

Tetanus spores may remain in your body for long periods without producing the disease. Or, they may produce poison effects in five to fourteen days, even though the wound has healed.

First signs of tetanus are irritability and restlessness. Muscles rapidly become rigid, eventually causing a clenched-jaw leer that gives tetanus the popular name of lockjaw.

When symptoms appear, the outlook is grim, even with the best treatment. To avoid the deadly consequences, be sure you and your family are immunized with tetanus toxoid. When you are immunized, your body manufactures antibodies that will fight tetanus. A booster is needed every ten years.

If you aren't protected, in an emergency there is no time for immunization. If you have no build-in immunity, your physician may inject tetanus antitoxin. An emergency shot, however, is not always effective.

Your only long-range guarantee against tetanus is immunization with tetanus toxoid. Only one of every four Americans has this protection. Have you?

## Brownies Visit Training Center

Brownies

The Brownies and Junior Girl Scouts from Troops 429 and 349, Bay St. Louis Catholic Elementary, visited the students at the Harrison County Training Center for Exceptional Children on April 11.

The girls entertained in colorful costumes, performing a Mexican Hat Dance. They shared some candy treats

from pinatas they had made as a project.

The girls attending were: Michelle Chiniche, Lisa Holland, Kathy Kyle, Carol Ladner, Christy Gleber, Jennifer Haas, Teresa Holland, Mary Ann Kyle, Jane Ladner, Theresa Ladner, and Donna Moran. They were joined by leader, Mrs. Gloria Holland and Mrs. Helene Moran.

## Obituaries

## ALICE CARVER

Funeral services for Alice Carver, 83, resident of Bay St. Louis, were held at 9:45 a.m. Monday from Edmond Fahey Funeral Home followed by a Requiem Mass at 10 o'clock in Our Lady of the Gulf Catholic Church with Rev. Jack Smith, associate pastor, as celebrant. Interment was in St. Mary's Cemetery.

Mr. Carver died Friday, April 8, at Gulf Coast Community Center, Biloxi.

Born January 20, 1894, in Bay St. Louis, he was a retired lumberman and a member of Our Lady of the Gulf Catholic Church.

Survivors include four sons, Alcide J. Carver, Victoria, Tex.; Luther J. Carver, all of Bay St. Louis; three daughters, Mrs. Wilma Breazeale, Bay St. Louis; Mrs. Mae Duffy, Newark, Ohio, and Mrs. Lottie Hoda, San Antonio, Tex.; 34 grandchildren and 15 great-grandchildren.

Pass Christian, died Sunday at Biloxi VA Hospital.

Born Aug. 12, 1921, in Hancock County, he was a life long resident of the Dedeaux Community.

A retired barber, he was a US Army veteran of World War II and a member of White Cypress Catholic Church, Infant of Prague.

Survivors include three sons: Lovander Patrick Ladner of Baton Rouge, La.; Gerald Michael Ladner, Biloxi; Darryl Anthony Ladner, Pass Christian; one daughter, Mrs. Kathleen Ann Cuevas, Gulfport; one brother, Andless Ladner, Pass Christian.

Funeral services were Tuesday at the White Cypress Catholic Church, Rev. Pierre Hissey, officiating. Burial was in Dedeaux Sandhill Cemetery to whence the remains were accompanied by an honor guard from Keesler AFB.

Mitchell-Woods Funeral Home was in charge of arrangements.

## Bernice Bobs Her Hair" On ETV

Bernice will bob her hair for the premiere program of "The American Short Story," a series of nine short stories on film to be telecast on the Mississippi Educational Television Network beginning Saturday, April 9.

F. Scott Fitzgerald's "Bernice Bobs Her Hair" can be seen at 8:30 p.m. on channel 19, Biloxi.

Shelley Duvall will fill the lead role as Bernice. Director Joan Micklin Silver, who also wrote the teleplay for "Bernice," says that the Fitzgerald character will evoke sympathy of many women.

"Bernice and her cousin," said Miss Silver, "like many of the female characters in Fitzgerald's work, feel that to be unpopular with men is as good as being dead. At the end of the story, Bernice finally asserts herself for the first time."

Miss Duvall says that she feels a special sympathy for

Bernice. Like the Fitzgerald character at the beginning of the story, she recalls having been shy and withdrawn as a teenager.

"I wasn't very popular," says the 27-year-old actress, "and I had trouble talking to boys."

In the story, Bernice must compete with her cousin Marjorie (Veronica Cartwright), who charms and manipulates all the eligible young men of her circle with her appearance and conversation.

"Bernice is a wonderful part for an actress," said Miss Duvall, "especially in these times, because she goes through a basic character change in course of the film."

She is transformed from an awkward, mousy young girl who can hardly open her mouth, to an attractive, self-assured person. By the end of the story, you know that she's really a star in her own right. She'll never be the same again."

Other short stories in the series include "Almos a Man" by Mississippi-born

## Laurel and Hardy

Two of the world's most original and timeless clowns, Laurel and Hardy, return to ETV for a rebroadcast of "The Dawn of Laurel and Hardy" each Wednesday at 6 p.m., beginning April 20.

The series can be seen on the Mississippi Educational Television Network channel 19, Biloxi.

It was in their original silent film short subjects that Stan and Ollie developed the comedy techniques that were to bring them international fame and recognition in later years. Drawn from these early film shorts, "The Dawn of Laurel and Hardy" includes films that had never before been seen in this country when the series premiered.

Each of the programs runs from 18 to 22 minutes. The titles alone conjure up the kind of comic catastrophes that made Laurel and Hardy famous. Among them are "Bacon Grabbers," "Big Business," "Double Whoopee," "Early Bed," "Should Married Men Go Home" and "Sugar Daddies."

## Arts and Crafts Festival

Prominent artists from Tennessee, Alabama, Florida, and Mississippi will be exhibiting their wares at the first annual University of Southern Mississippi Arts and Crafts Festival, April 15-16, at the R.C. Cook University Union, announced Joe Paul, assistant director of student activities.

More than 100 of the southeastern states' artists and craftsmen will be exhibiting, demonstrating and selling their goods.

Original sculpture in copper, brass and steel by Rita Vander Weden will be on display and for sale. Debbie Emfinger will exhibit hand-made doll houses and miniature furniture. In addition, Willard Harrell's original southern scenes with pen and ink and water color will be on display.

The general public is invited to attend the handicrafts exhibition from 10 a.m. to 8 p.m., Friday, and from 10 a.m. to 6 p.m., Saturday. There is no charge. Refreshments and live entertainment will be provided.

## New Studies Confirm State Cattle Potential

POPLARVILLE, MISS. - New research confirms Mississippi's potential for a thriving beef cattle industry, speakers emphasized at Mississippi State University's recent South Mississippi Research and Extension Center Beef Cattle and Forage Field Day in Poplarville.

The event was sponsored by the Mississippi Agricultural and Forestry Experiment Station (MAFES) and the Mississippi Cooperative Extension Service.

South Mississippi Center beef cattle research is directed toward maximizing beef production in each of the three phases through proper management and forage use. Some of the results achieved in each phase are:

**NURSING**  
1. One hundred Hereford cow-calf pairs were grazed on 100 acres of pasture. Twenty five cow-calf pairs each were maintained on bahiagrass, Alicia bermudagrass, Callie bermudagrass or Coastal bermudagrass. Calf weight weaned per acre was 400 pounds with the cows rebreeding at a 90 percent conception rate.

2. Calf weaning rates can be increased by a planned crossbreeding program. A response of approximately 30 pounds in weaning weight has been observed when comparing straightbred Herefords with two-breed cross calves. Current studies reveal an additional 120 pounds advantage of three-breed cross calves over the two-breed combination.

**GRAZING**  
1. Eighty weanling steer calves have been grazed the past two winter-grazing seasons on different mixtures of winter annuals. An additional 100 pounds of beef per acre have been produced when different cereal grains were incorporated into the ryegrass-clover mixture. This meant an extra return of \$30 per acre over the additional seed cost.

2. Growth stimulating implants also increase performance of grazing steers. Studies have been conducted comparing Ralgro, DES and Synovex. Net return above cost of implanting has ranged from four to 12 dollars per head for wintergrazed steers.

**FINISHING**  
1. An experiment is comparing different management systems for steers grazed on winter annuals. Steers are slaughtered off winter pasture or undergo a short grade improvement period with grain-on-grain or in the feedlot on a corn silage finishing ration. A short grade improvement period has a beneficial effect on carcass quality; however, the relative price spread between standard, good and choice steers dictates the economic feasibility of this enterprise.

2. Seventy-two steers were finished on a basal corn silage ration with varying levels of supplemental grain (0, 1/4, 1/2, 1, 1 1/2 percent of their bodyweight in whole shelled corn). Average daily gain was 2.4, 2.5, 2.9 and 2.4 pounds for the respective groups. Feed cost per pound of gain was 23, 32, 33 and 49 cents, respectively. The "control" treatment was, of course, the most economical. Based on a yield of 15-17 tons of corn silage per acre, this treatment produced

1,700 to 2,000 pounds of beef per acre.

Management practices required to make any forage system successful, according to J. W. McKie, extension area agronomy specialist, are:

1. Using the forage plant that best fits the class or classes of livestock produced.  
2. Achieving proper soil fertility by soil testing for production level desired, lime as the first fertilizer on acid soils and nitrogen management.

3. Weed control involving (a) combinations of herbicide and mechanical (clipping) approaches necessary for economical control of troublesome weeds (horsenettle, cypressweed, goatweed, bitterweed, pigweed, smartweed and others).

(b) herbicide application on bright, warm days with the temperature at least 65 degrees F. and very little wind. Spray, using at least 15 gallons of herbicide per acre, when weeds are young and vigorously growing.

4. Grazing involving three to five animal per acre grazing pressure with rotation on approximately two-week intervals, harvesting all surplus forage for hay and using all forage produced.

Hiram D. Palmertree, extension forage specialist,

outlined means of getting the most from summer grasses at the lowest possible cost. He advocated:

1. Testing soils for nutrient needs as soon as possible and, if time is needed, apply it immediately.  
2. Developing priorities for nitrogen application at the beginning of the season to grow as much forage as you can in the shortest time possible.  
3. Rotating your grazing in small units rather than using

large pastures.

4. Strong weed control measures. Fertilizer is too expensive and water too scarce in late summer to let weeds cut potential forage production.

Steps for gaining quality silage production, outlined by Carl Hovermale, MAFES agronomist, are:

1. Take soil samples and apply fertilizer for the anticipated yield.  
2. Plant a high grain variety whether corn or sorghum.

3. Plant early to avoid insects and disease.

4. Cut in the right stage of maturity, 1/4 to 3/8 inch lengths.

5. Seal the silo.

"Grass alfalfa or sorghum will make silage," Hovermale noted, "but the basic silage crop is corn because of high animal acceptance and utilization plus high per acre yields. For best corn production, take soil samples in the early fall, find what you need and apply it. If you can avoid it, don't just apply 400 pounds of Triple 13 and forget

it. Wilson Kilby (MAFES South Mississippi superintendent) said that we have saved about 50 percent of the fertilizer bill this year by soil testing."

"Today, one must think in terms of profit per cow, profit per acre, profit per operation or return on investment, rather than just weaning weights, percent calf crop, pounds per acre or gross returns," Thomas C. Randolph, assistant to the dean, Mississippi State University's College of Veterinary

Medicine, and MAFES researcher, emphasized. "Spending money on practices that don't increase profit is sending good money after bad."

He said these objectives include:  
1. Reducing losses from direct effects of the disease.  
2. Reducing losses from indirect effects, such as reduced growth rate, feed efficiency and reproductive rate.  
3. Maintaining the herd in a state of health appropriate to meet economic needs of each program assigned.

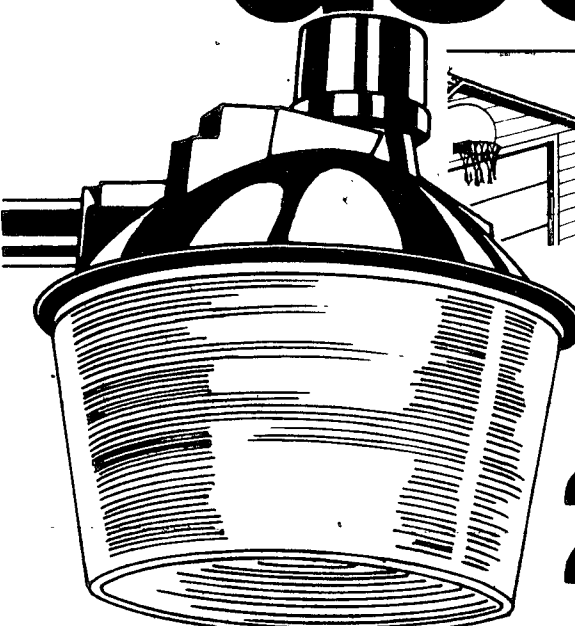

are to be taken during that time period to meet basic objectives of the herd health program."

He said these objectives include:  
1. Reducing losses from direct effects of the disease.  
2. Reducing losses from indirect effects, such as reduced growth rate, feed efficiency and reproductive rate.  
3. Maintaining the herd in a state of health appropriate to meet economic needs of each program assigned.

### EDA M May Grant Bay Sewage System '\$\$\$

A \$340,000 Public Works Employment grant sought by the City of Bay St. Louis last year for the extension of main sewage collection lines into the newly annexed area, initially denied by the Economic Development Administration, may be funded under a fresh batch of money allocated to the program.

A letter from George T. Karras, acting deputy assistant secretary for Economic Development Operations was forwarded this week to Utilities Commissioner Lucien Kidd from Senator John C. Stennis of Mississippi.

The city had previously asked Stennis to intervene in the matter when the denial of funds had been followed by a release of like projects elsewhere that were funded under the act.

Karras told Stennis the initial allocation of assistance for local public works projects (under the act) had resulted in some inequities.

"A few local governments with significant needs for assistance were bypassed, while the projects of some

local governments with lesser needs were funded.

"These inequities resulted, in some cases, from the problems associated with administering a program of this magnitude in the short time available," the Karras letter said.

Further, the EDA deputy secretary reported, that other inequities were the result of problems created by the authorizing legislation and that EDA shared the senator's commitment to correcting these "minor administrative and legislative difficulties and to strengthening the role that local public works can play in the economic recovery."

The letter to Stennis reports that legislation now before Congress would result in an extension of the program and it appeared that applications considered under the proposed extension normally will be limited to those submitted to the agency by Dec. 23.

Kidd said he was pleased the matter was still under consideration.

He said that while the money in no way represents the entire sum needed for the work, it will give the city a

start.  
The original engineering for the project was done for the city in 1968 by the firm of J. G. Richard, Jr., and Associates of Baton Rouge, La.

### Bay Police

recover  
goods

The Bay St. Louis Police Department led by Police Chief Douglas Williams and Assistant Chief Emmett Ellis recovered stolen goods from Lusich and Jerome Department Stores on April 11.

The two suspects in the case were arrested. They were Reginald Laneaux from Bay St. Louis and Milton Hargett also from the Bay. Laneaux was charged with possession of stolen property and Hargett charged with accessory after the fact.

The two stores had been burglarized in April and in October.

### news in brief

**SPANISH ACRES ASSOCIATION**  
The nomination of officers will take place at next session of the Spanish Acres Improvement Association, 7:30 p.m., Wednesday, April 20, at 803 Spanish Acres Drive. All members are urged to attend and participate.

A BOUNTY OF BOOKS was in evidence this week as preparations for Christ Episcopal Day School's annual Book Fair and Silver Tea got underway. Here Mrs. Denise Shilstone and Mrs. Carol Vegas unpacked some of the books suitable for grades 1-12 to be offered for sale. The books will be displayed Tuesday, April 19, from 11 a.m. to 3 p.m. at the Vegas' homes, 812 North Beach Blvd., Bay St. Louis and then move to the library at CEDS through Friday, April 22. All proceeds go toward the purchase of new books for the CEDS library.

## Baker would buy 500 ticket

But Bobby Baker really didn't want what he said, there would be a line of leading Winston 500 Cup Grand National drivers outside the Talladega race track office trying to buy Baker's 500 ticket.

"I'll tell you what," Baker was telling a garage group of fans, "I'll sell you the Winston 500 ticket, after watching the annual last year's Winston 500, I've decided I would buy a ticket to watch that race myself."

Baker, who won the Winston 500 at Alabama International Motor Speedway in Charlotte, N.C., last year, won it in record-breaking fashion, covering the 500-mile distance at an average speed of 169.887 miles per hour. It was the first time in 500-mile racing history a 500-mile race had been run in less than three hours. Baker needed only two hours, 56 minutes and 37 seconds to make the Winston 500 the world's fastest 500-mile event.

The Winston 500 ticket was also Baker's ticket to a tow, which prompted Dave Marcis to tell him, "if you'll promise me you'll watch this year's race from the grandstand, I'll buy you all the tickets you want."

Baker grinned. "I'll be watching it all right, but I'll be a lot closer to the action than that."

David Pearson, who won the Winston 500 in 1972, 1973 and 1974, chimed in. "I hope both of you are watching it from behind me, especially on the last lap."

Everyone laughed, but when Sunday, May 1st, rolls around, the laughter will turn to 188 laps of competition between Baker, Marcis, Pearson and 37 other hopeful drivers who will zoom around the world's fastest speedway in quest of a

\$236,885 purse, the largest in Talladega history.

The 40-car starting field will start earning starting positions on Wednesday, April 27, and most veterans agree it will take a speed of better than 190 miles an hour to earn the pole spot and the \$1,000 that goes with it.

Marcis sat on the pole last year in Harry Hyde's no. 71 Dodge at a speed of 189.197 miles an hour. The Wisconsin native finished ninth in the race but came back to win the Talladega 500 later in the year.

Tickets are now on sale at the Speedway ticket office (362-9004) and most Alabama Sears Stores.

## USM Football Ticket

Season football ticket information brochures were mailed to all previous season ticket holders on April 7, according to athletic business manager, Jim Simpson.

"We have taken a new approach to deal with season tickets this year," Simpson said. "On the inside of each folder mailed we have placed a label listing that person's seat from the previous year and giving him the opportunity to have the same seat or improve."

Additional season ticket brochures will be mailed in the next two weeks to all USM Alumni and individuals ordering single game tickets during the past season.

The Golden Eagles will begin their second season in the new stadium on Sept. 10, hosting Florida State. Other home games for the Eagles are North Texas State on Oct. 8, Louisiana Tech on Nov. 12, and Arkansas State on Nov. 19. The four home-game 1977 state jumps to six in 1978.

The annual Black and Gold game has been set for May 7 with an April 23 scrimmage in the Biloxi stadium, sponsored by the Coast Big Gold Club.

## Vietnamese children to picnic at Buccaneer

Approximately 40 Vietnamese children between the ages of 8 to 10 will visit the Bay-Waveland area this weekend as guests of some 50 teenage members of Project Do.

The visitors are all residents of a housing project in east New Orleans.

To arrive at St. Stanislaus at 9:30 a.m., Saturday, the guests will be met by the local teens who will stay with them

throughout the day.

Following a small reception, the entire force, locals and Vietnamese, will journey to Buccaneer State Park where, after establishing "base", the group will break off into

groups for such activities as softball, kickball, jump rope, beach, swimming and sand castle building, and a treasure hunt.

Each local "Project Do'er" has been asked to bring a

lunch for both him or herself plus an extra lunch for one of the visitors.

Included with the edibles, Brother Canisius Schell, Project Do director, has asked thought be given to provision of cold drinks and the like.

## Opinion/Larry Nash

## Candidates Offered Our Congratulations

Twenty-seven people from our community thought enough about the future of their city this last few weeks to enter their name into the race for slots on Mississippi's first mayor-council form of government.

Between now and the first primary, scheduled for May 10, the numbers of persons so offering themselves for public service may swell through the qualification of further independent candidates, whose deadline is April 28. True, due to unforeseen cir-

cumstances, we may experience a decline in candidates if, for one reason or another, people presently qualified choose to withdraw their names before the ballots are cast.

Several things have made themselves apparent however as Bay St. Louis forges its future into political history. One is the readiness of substantial people to come forward to serve. The second is the emergence of the two party system in local elections.

The change being brought about in both the form of government and its composition is the result of a mandate of the city's electorate.

The 27 declared candidates, win, lose, or draw, have already accomplished, by their declaration of willingness, the second step required to bring about change.

It is for their willingness to become involved, to stand and be counted at this time of need, we offer our applause.

## Letters to the Editor

Mr. Ellis Cuevas  
Editor-General Manager  
Sea Coast Echo  
P.O. Box 330  
Bay St. Louis, Mississippi 39520

Dear Mr. Cuevas:

I recently was involved in an auto accident that inflicted minor injury to my person, but damaged my automobile to the point of non-repair. I still am not convinced that this accident was totally my fault. Fortunately no other persons or vehicles were involved. I'm relatively sure that other motorists as well as myself, experiencing the same mishap for the same reasons would like to see this malady corrected as soon as possible. I feel that the correction of the cause of the accident is the responsibility of the state, county and local government.

Several years ago a young lady from Bay St. Louis lost her life at that spot in an accident that was the result of the same circumstances. I feel that corrections in the structural design and

drainage of the road way at the trouble spot are long overdue, since there were accidents involving six other vehicles, one just an hour before mine, during the previous two days. The safety of our highways is the responsibility of our Highway Department, and the extensive amount of damage and injuries from this problem area must warrant immediate action.

The sight of the problem is on U.S. Highway 90 in Pass Christian, 1/2 mile East of the curve at Henderson Point in the Eastbound lane. A large puddle of water collects on the highway after and during rainstorms. The puddle is always bottomed with a layer of sand. When it is raining there is no indication that the puddle exists, unless you see someone in front of you hit it with their vehicle. It is quite easy to lose control of your vehicle when hitting the water, even when proceeding eight miles under the speed limit as I was traveling. There are also four palm trees located on the center island beginning where the puddle ends. These make an effective deterrent to vehicles crossing the median into the oncoming traffic, but were the cause of damage to numerous vehicles and the death of the aforementioned lady.

I truly hope that by bringing this to the attention of the public, others who have experienced the same problem will come forward and attempt to convince the authorities that there is a problem here that needs correcting. I also hope this will alert other Gulf Coast motorists to this problem area so they may be spared the agony of a mishap that could cause injury, loss of life and damage to their vehicle.

Sincerely,  
Louis H. Schwabacher III

### Guest Editorial

BETTY BUNNER  
981-4721

In response to many requests for information on the Mississippi Heart Association's policy regarding patient care, the Association, through its President, L. Gerald Hopkins, M.D., today issued the following statement: "Diseases of the heart and blood vessels are the most serious threat to the health of the American people. They cause one out of every two deaths in the state. This is almost double the combined total of the next five leading causes of death. Additionally, an estimated 337,000 Mississippians have some form of heart or circulatory disorders. If the Association were to use its entire funds for patient care, each patient this past year would have received only \$1.48.

"The Association believes it can best reach its mission - the reduction of death and disability from heart disease - through programs of research, education and community services. The history of medicine shows that prolonged, stubborn scientific study and experiment are the only ways to obtain the new knowledge needed to bring disease under control.

"To make the new knowledge gained through research quickly available to physicians, nurses and other health personnel for the benefit of the heart patients, your Heart Association holds Scientific Sessions attended by hundreds of physicians. Additionally, the organization publishes scientific journals, develops numerous postgraduate teaching aids, and cooperates with the health professions in establishing and maintaining cardiac clinics where needed.

"In community programs, the Association has screened 220,000 Mississippians for high blood pressure. An estimated 300,000 citizens in our state have this disease, and only half of them know it. As a result, a major focus has been placed on locating these potential heart attack and stroke victims.

"In many communities there are patients who are now knowledgeable in the procedures necessary to obtain financial aid for medical, nursing, hospital, and rehabilitative care necessary to restore them to their full potential capacities. In such instances, the Heart Association is obligated to provide leadership that will assist such patients to obtain the needed services, which many times are available from government and other agencies.

"It is estimated that 350,000 heart attack victims die annually before they can get to medical help. To reduce this toll, the Association is sponsoring training programs to teach cardiopulmonary resuscitation (CPR) to men, women and children from all walks of life.

"In summary, progress is being made through the Mississippi Heart Association's programs of research, education and community services. A continuing decline has been achieved in the death rates from heart attack, stroke, high blood pressure and rheumatic disease. The overall decrease in heart disease deaths (1950-74) is 26 percent; the decrease in stroke deaths for the same period is 32 percent; and the decline in high blood pressure deaths for the period 1968-74 is 50 percent. This progress could not have been made had the Association invested the Heart Fund dollar in patient care.

### Report

by Rep. Trent Lott

#### AMERICA FIRST

It's that time of year again when Congress considers legislation providing funds for various international lending institutions. This bill is the best example I know of where the Administration and the Congress talk about balanced budgets, like meek little lambs, and then spend five and a quarter billion dollars in foreign aid, which shows what wolves they really are.

The International Lending Institutions bill includes funds for such organizations as the World Bank, International Development Association, and the African Development Fund. Over \$1.5 billion goes for the World Bank.

One major objection to the United States' putting such large sums into this form of foreign aid is that in many instances we have little or no say in where or how the funds are spent. For instance, while we will provide some \$10 million for the African Development Fund for 1978, we will have less than a 4-percent voting share on the decision-making board.

Furthermore, it is my understanding that aid from some of these international institutions may go to such countries as Vietnam, Laos, and Cambodia.

Another tragedy in such programs is that quite often these institutions supply development capital to countries that produce commodities to compete with American goods. In other

words, we are financing the competitors of American workers. What kind of sense is that? Examples of commodities which damage American markets are citrus, palm oil, sugar, and beef.

The big "boogey man" issue in Washington these days, of course, is human rights. Yet in the Committee bill this issue is conveniently softened. The reason is very simply that the 14 countries that will receive the most funds are also among the world's worst violators of human rights. Why the double standard?

And while the value and cost of such water resources projects as the Tallahala Creek Reservoir and the Tennessee-Tombigbee Waterway are being questioned here at home, these international institutions will be making loans all over the world with our tax dollars for just such projects. From the standpoint of flood protection, drinking water, commercial development, the environment, and just plain jobs, these Mississippi projects have already been justified, and I believe we should be considering the human needs in our own country.

I plan to support efforts to reduce the funding of several of these institutions and will vote against the bill on final passage. We just cannot afford to spend well over \$5 billion for questionable foreign programs while our own economy is suffering so much. When will the majority of Congress begin to think about America first? I think it's high time to do it!

### Pennington

(Continued from Page 1)

The verdict, read by the foreman, "We the jury, find the defendant not guilty," cleared Mrs. Pennington of all charges in connection with the incident.

The jury deliberated on both the evidence and arguments by counsel for about one and one half hours before reaching their decision.

In other Hancock Circuit Court action, John Alfred Butler who pled guilty to all charges, was sentenced to serve 10 years in the state penitentiary on a charge of armed robbery, and five years apiece, to run concurrently with the armed robbery sentence, on five charges of burglary of a dwelling at night.

Robert O'Dell Bennett, who also pled guilty, was sentenced to five years in the state penitentiary, on each of 12 counts of burglary of a dwelling, all to run concurrently, was additionally sentenced to two concurrent 20 year terms, one each on charges of armed robbery and aggravated assault.

John Fairconneture, Jr., was sentenced two years in the state penitentiary after pleading guilty to parole violation, the sentence to run concurrently with a previous four year sentence imposed by Harrison County court for other offenses.

the editorial page

United States Department of Justice  
WASHINGTON, D.C. 20530

Honorable Warren J. Carver  
Mayor

City of Bay St. Louis  
Post Office Box 310  
Bay St. Louis, Mississippi 39520

Dear Mayor Carver:

This is in reference to the changes in form of government, redistricting and polling places by the City of Bay St. Louis, Mississippi, submitted to the Attorney General pursuant to Section 5 of the Voting Rights Act of 1965, as amended. Your submission was received on March 29, 1977. In accordance with your request expedited consideration has been given this submission pursuant to the procedural guidelines for the administration of Section 5 (28 C.F.R. Section 51.22).

The Attorney General does not interpose any objections to the changes in question. However, we feel a responsibility to point out that Section 5 of the Voting Rights Act expressly provides that the failure of the Attorney General to object does not bar any subsequent judicial action to enjoin the enforcement of such changes.

Sincerely,

*Harry J. Farve*  
Drew S. Days III  
Assistant Attorney General  
Civil Rights Division

(Continued from Page 1)

### Harry J. Farve

Former member of the St. Rose Parish Council, he was a 1961 graduate of the St. Rose High School - for whom he played both basketball and baseball.

Employed for the last 15 years as assistant manager in charge of mailing services at St. Augustine's Seminary, Farve has served the city as director of the Valena C. Jones Civic Center Gymnasium where, in such capacity, he directed several recreational programs including that of the Bay St. Louis Basketball League.

Well known for his civic work with children from 8 to 12, Farve, is also a member of the Veterans' Civic Organization, and has played basketball in the semi-pro leagues.

While playing semi-pro baseball an accident resulting in his sustaining permanent injury to his knees - was responsible for his not being accepted for military service.

"I have tried to show throughout the years, in a practical manner, that I am a community minded citizen, concerned with our total environment.

"The opportunity now afforded the people of Bay St. Louis through their expression for a change of government is, I feel a definite move forward into a more successful future.

"I feel I can contribute towards that future by bringing a proven knowledge

of community concerns to council and lending myself toward the solving of these community problems.

"The election offers two things. First it offers me, a black, the opportunity to serve on council in the interest of all the people.

Secondly, it may let me show what I can do for the combined good of our city."

(Continued from Page 1) Law

a member of Phi Delta Kappa and Kappa Delta Pi professional educational fraternities. He is also a member of the Materials Handling Association and the Pass Christian Planning Board. He is a ten year member of the Materials Handling Association and the Pass Christian Planning Board. He is a ten year member of the Mississippi Army National Guard and Naval Reserve. Past memberships include the Junior Chamber of Commerce and Chamber of Commerce.

Business experience includes both finance and management for industry and a regulatory agency. Dr. Law also has taught in the public schools and the junior college.

Concern for the city of Pass Christian was given by Dr. Law as his reason for running for the post of Mayor.

"Professional leadership and pride in the city should make the town grow to benefit all of its citizens." His platform included an effective dog ordinance which is fair to all concerned; as Mayor's Advisory Committee representative of all wards; recreation programs to include all ages; and drainage problems. "The city should be run like a business by a person with training and experience in management and finance." With proper management services should be improved and ways investigated to increase the tax base while not increasing already to high taxes.

He and his wife, Pat, have been residents of Pass Christian since 1967. They are members of Trinity Episcopal Church.

## Grand Jury

land question and take whatever additional action as may be necessary at that time to rectify "the deplorable conditions..." existing in the land's administration.

Finally, to close the gate, the grand jury stated they would be willing to return in July to "assist in the solution..." of the problem in the event that the aforementioned elected public officials failed to institute the reforms sought.

The variance in lease amounts was displayed this week in a document indicating the amount of land under lease and the sum being received by the school system. A lack of statistics on individual lease however prevented division of income per year per lease.

Lease variations shown, taken at random included: 20 acres to expire in 1983, leased for total payment of \$250; 150 acres, lease to expire in 1998, total payment of \$468.75; 40.06 acres, lease to expire in 1996, total payment of \$500; 40 acres, lease to expire in 1999, total payment \$1000; 36 acres, lease to expire in 1999, total payment \$500; 55.78 acres, lease to expire in 1997, total payment \$500.

## Waveland

who have feared an outbreak of fire to the north of the railroad tracks while road crossings were blocked by a slow moving freight train.

In further city business, Waveland has received a grant of \$3,900 under the new anti-recessional fiscal assistance program. Funds concerned have been earmarked to supplement salaries in the city's police department, enabling the maintenance of existing law enforcement standards.

## Ms. College Offers Musical Program

The Mississippi College music department, in cooperation with members of the Jackson Symphony Orchestra, will offer students in the Wiggins area an expanded program of applied instrumental music on campus this Fall, it was announced this week by Dr. Jack Lyall, chairman of the division of fine arts.

Eight members of the orchestra will offer instruction in such specialized instruments as flute, bassoon, French horn, and oboe, at the current rates being charged for other applied music instruction on campus.

"It is sometimes difficult for a small music program to employ full-time instructors for some of the more specialized instruments," said Dr. Lyall. "But in gaining the part-time services of the Jackson Symphony Orchestra members, we can now offer a full range of excellent private instruction."

The Mississippi College band is in its first year under the direction of Dr. John Hanbery. Dr. Hanbery served as band director at Kosciusko Junior High School, Kosciusko High School, Union High

## Antique Mart Set In Bogalusa

April 30 and May 1 will be exciting days in Bogalusa, Louisiana as those are the dates for the big Spring Arts, Crafts and Antique Mart sponsored each year by the Bogalusa Chamber of Commerce.

Over 120 artists, craftsmen, antique enthusiasts, potters and others from Louisiana, Mississippi, Alabama, Florida and Texas will be featured at the semi-annual show and sale. "Turnouts from our past Art Marts have been excellent but the beautiful weather that is expected in May and the enthusiastic response displayed this far in advance indicates that all attendance records will be broken," commented Chamber of Commerce Director, Duane Blackwell.

The location for the colossal spring Mart will be under large pavilions at Elsworth-Talbert in the traffic center of Bogalusa. Over 120 booths are available to those interested in acquiring space. Booth rental is \$10.00 for the two day sale and no reversations will be made until the fee is paid.

Bogalusa is a city of 19,000 serving a retail trade market of 100,000 people within a 30 mile radius.

Any individuals interested in reserving a booth should contact the Chamber office 608 Willis Avenue in Bogalusa.

## Safety By The Numbers

According to experts at The Hartford Insurance Group, children should be taught to leave the house immediately in case of fire, and call for help from a neighbor's house.

## Miss. Art Colony To Exhibit

Six public libraries in Mississippi will host an art exhibit of paintings by Mississippi Art Colony members from May through September. Libraries in Forest, Meridian, Heidelberg, Waynesboro, Pascagoula and Hattiesburg will each display the exhibit for one month.

The Mississippi Art Colony is a group of practicing artists who meet biannually for painting workshops. Paintings included in the exhibit will be selected during the workshop

slated for April 28-May 1 at Camp Henry S. Jacobs in Utica. Approximately 20 paintings will be chosen by workshop instructor Hugh Williams. Williams is a member of the art faculty at Auburn University.

The traveling exhibit, coordinated by the Mississippi Library Commission, will include purchase awards presented by the First National Bank of Hattiesburg, the First National Bank of Laurel and the NECO Electric

Products Corporation of Laurel. The art tour will also include recipients of awards from the Weyerhaeuser Company of Philadelphia, The Colony Award Best of Workshop and the State Guaranty Bank of Magee.

This art tour is the first of a series of tours that will visit public libraries across Mississippi. Seven public libraries have scheduled a second art tour from October, 1977, to April, 1978.

## A LESSON FROM ACROSS THE SEA

Can government make everyone rich and happy?

That is a question many Americans today would answer with "yes."

Can government make everyone healthy for nothing?

Again, many would answer "yes." Is it possible for government to support the underprivileged by "soaking the rich?"

Once more, many would respond affirmatively.

It is easy to see that those answers are erroneous, simply by studying the problems our mother country - Great Britain - is experiencing.

Dr. Arthur Shenfield, a noted British economist, spoke to the Mississippi Economic Council's Annual Meeting in Jackson recently and he burst the bubble that many hold dear - that

government can be all things to all people.

He described how the socialized medicine program in Great Britain has mixed health care and politics, creating a brew of questionable medicinal values. He told the poignant story of the British government's increasing tax burden and how those additional taxes caused a growing number of the British people to become economically and socially dependent on government.

The facts fall closely in line with the path the United States is traveling today - higher taxes; larger, more sweeping government programs; greater deficits; more taxation; higher inflation; more government employment; less economic freedom.

are: Harry J. Farve and Ruth M. Summer, both Democrats; District Four, John J. L. Gonzales (D); John H. Pearson (D); Sidney A. Sandoz (D); Sheldon M. Seuzeneau (D); Fred Wagner (R).

Councilman-at-large seat is being sought by: Albert D. Biehl, Jr. (D); Randolph C. Bourgeois (R); Wilmer E. Seymour (D); William A. Tate, III (D).

Bourgeois, McDonald, and Wagner, have been declared the Republican Party's certified elected nominees, and will not appear on the primary election ballots.

The District Two race, will force a Republican primary, with both H. V. Carver and Linda McCulloch seeking the nomination.

Here, the Republican booth will be located in the Cy Rosenthal Gymnasium, site of

District Two voting, but will have its own poll book and entrance.

All Democratic seats will be contested in the May 10 primary.

Electorates will be faced with a complete slate of candidates on the general election ballot, but Republicans wishing to vote on the Democratic ticket in the primaries may do so providing they do not also vote in the Republican primary on the same day (District Two). The second primary has been set for Tuesday, May 17.

Independent candidates qualifying prior to their April 28 deadline will also only appear on the general election ballot.

Other Republicans declared certified elected nominees, are the three members of the Municipal Election Committee, Alvin J. Summy, Dr. A. K. Martinovich, Jr., and Fred Wagner.

## Carey Sets Annual CALL Conference

William Carey College has scheduled its annual CALL conference for Saturday, April 30, according to an announcement today by college officials.

Initiated in 1972 to help young people become aware of the numerous vocations available in church-related areas, CALL (Christian Action as the Lord Leads) will prove useful to any Christian high school or college student who has not yet decided upon a career.

Cost of the all-day event is \$5.00, which will include conference materials and lunch. Reservations may be made by writing: CALL '77, in care of Dr. Jerry Oswald, Office of Student Affairs, William Carey College, Hattiesburg, Miss. 39401.

CALL '77 will begin with registration at 9 a.m. in the lobby of Thomas Business Building on the Hattiesburg campus. Following a brief orientation period, participants will separate for group sessions led by individuals from various religious fields. Sessions will include discussions on local church ministries, denominational ministries, and institutional ministries. The meeting will end at approximately 3 p.m.

### PROF ELECTED

Dr. Burl Hunt of Ole Miss has been elected president of the Mississippi Association of Media Educators. Dr. Hunt served as president in 1968-69.

## USM Aids Keesler Education Office

The University of Southern Mississippi has been praised by Keesler Air Force Base for assisting in Keesler's earning the Outstanding U.S. Air Force Education Services Program Award for fiscal year 1976.

"The staff of USM has been eager to provide for the educational needs of Keesler military and civilian personnel," said Col. Ralph I. Kretzer, chief of the Keesler personnel division.

"It is this kind of cooperation that has made our success possible," added the colonel.

"I know of the many contributions Dr. Bill Lee has made during the last fiscal year, but I know there are many more who should receive recognition, both at the Gulf Park and Hattiesburg

campuses," he said. "We are looking forward to continuing our educational progress. We hope our efforts will be crowned by a viable doctoral program for personnel on the Mississippi Gulf Coast," he concluded.

Keesler's Education Office earned the award for its accomplishments in the counseling, facilities improvement, and coverage of tenant units.

Maj. Gen. Winfield W. Scott Jr., commander of the Keesler Training Center, said that the staff of the Education Office "attests, separately and collectively, to an outstanding effort of educational coverage and growth."

Paul S. Kelly is chief of the Keesler Education Office.

## Ag Affairs

### 'COPS & ROBBERS' COMPUTERIZED

The game of cops and robbers is being computerized in Mississippi - and the quick draw nowadays is on the side of the good guys.

A sharp increase in rural crime over the nation in general and Mississippi in particular has brought about the development of new farm identification system. Through it, farm and home property is permanently marked with registered identification numbers which may be fed instantly into the FBI's National Crime Information Center for national surveillance for the stolen property.

In a short while Mississippi property owners will join a national network that will make the fencing of stolen property the riskiest business in the nation. Putting the program all together for Mississippians is a joint project between the Mississippi Highway Patrol, Mississippi Farm Bureau Federation, and the Mississippi Sheriffs' Association with the cooperation of other law enforcement groups.

The farm identification system works on the principle of permanently numbering farm and personal equipment with numbers that will not be visible, and which cannot escape detection even when supposedly filed or torched off. Impaction of the numbers in the structure of the metal remains for reading by sophisticated modern equipment though obliterated to the human eye.

Any property owner can apply for his registered equipment number coded to reveal his state, county, personal number within the county, and other clue digits. Some purchased equipment will be dye stamped in concealed places with the owner's number prior to delivery. Other equipment already on the farm or in the home will be dye stamped on the premises by checking out the identification equipment at the county Farm Bureau or another readily available office in the county.

Property identification numbers will be recorded in county sheriffs' offices with duplicate filings with the Mississippi Highway Patrol. Report of a theft instantly relays the number through the National Crime Information Center to alert law enforcement agencies.

For farm crop protection the system goes farther with confetti bearing the owners' number distributed into harvested soybeans, rice, wheat, etc. for positive identification throughout all channels to the processor.

The theft prevention program is spearheaded nationally by the American Farm Bureau Federation. This year will see at least 25 states including Mississippi actively participating in the identification and enforcement program. Center for Mississippi's quick draw computers is the Mississippi Highway Patrol crime center in Jackson.

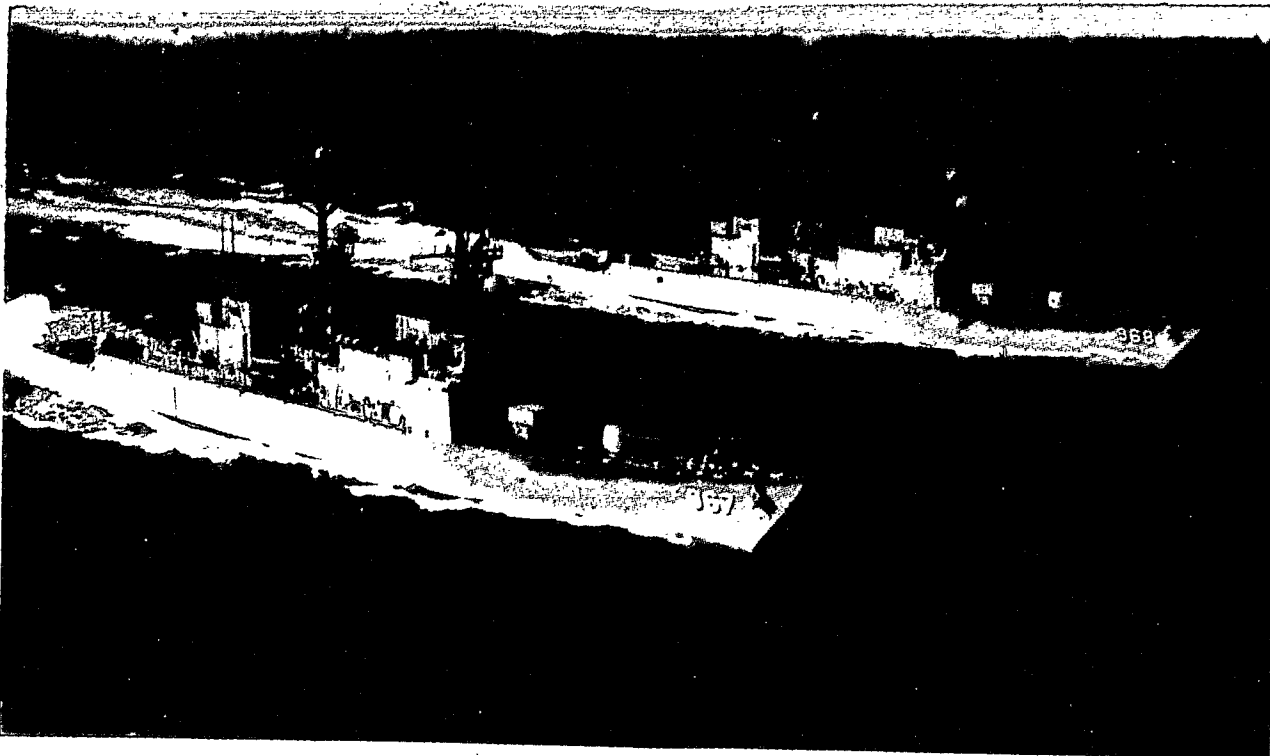

Local sheriffs' offices will be responsible for assignment of identification numbers. Local citizens will be responsible for impressing their numbers on all property considered susceptible to theft or misappropriation. The Mississippi Farm Bureau Federation will promote participation in the program through local county Farm Bureau.

### BIRD SKINS

More than 3,200 bird skins, entrusted to the Ole Miss Biology Department by Mr. and Mrs. Gordon Vaiden of Rosedale several years ago for educational purposes, are loaned to individuals throughout the United States for use in research and ornithological studies.

Mr. and Mrs. Vaiden spent more than 39 years on their hobby, which represents one of the most complete collections of bird skins in the United States.

"The collection represents several orders, from shore birds and waterfowl to songbirds and birds of prey," said Dr. Luther Knight, a curator of the Zoology Museum at Ole Miss and associate professor of Biology.

**EAGER HUNTERS** - Two ships of the highly advanced Spruance class of destroyers DD-967 and DD-968, maneuver together during an exercise in the Gulf of Mexico. Built primarily for anti-submarine warfare, by Ingalls Shipbuilding division of Litton Industries in Pascagoula, Miss., the 30 ship class has become known for its high-speed maneuverability.

stability and weapons accuracy, as well as its reliability and quiet operation. DD-968, named USS Arthur W. Radford, will officially join the Navy Fleet in commissioning ceremonies at Ingalls on Saturday, April 16. DD-967 joined the Fleet in January.

## VA QUESTION

Q - I am an Army retiree and waived my retirement pay in lieu of VA disability compensation. May I have an allotment withheld from my compensation check to pay premiums for a commercial insurance policy?

A - No. Q - If my son enters the Air Force Academy, will he receive government life insurance?

A - He will be covered under Servicemen's Group Life Insurance unless he elects to waive his coverage.

Q - If a veteran is entitled to a one-time VA car grant is he entitled to adaptive equipment for vehicles he may subsequently purchase?

A - Yes. Q - May a veteran concurrently receive VA compensation and pension?

A - No. He would automatically be paid the greater of these two benefits.

### NAMES SOUGHT

Two female stump-tailed macaques, first generation monkeys born in the Ole Miss Primate Center established two years ago, are central figures in a "Name the Babies Contest" sponsored by the Center staff. The animals will ultimately be involved in a social behavior study conducted by the UM Pharmacology Department. The Center is a division of the School of Pharmacy and the Research Institute of Pharmaceutical Sciences.

W. ROY BURRIS, MAFES assistant animal scientist, presented new research results emphasizing Mississippi's potential for a thriving beef cattle industry.

## Proclamation

Whereas, all types of libraries throughout Mississippi, public, school, academic and special, are striving to inspire citizens to be more informed than ever before;

Whereas, Mississippi libraries are united in their efforts to acquaint state residents with the wealth of information and services libraries have to offer;

Whereas, libraries are working toward involving local citizens in the activities of the libraries so that the citizens may reap the benefits of library services;

Whereas, the services provided by state libraries offer state residents the opportunity to expand their knowledge on all levels;

Whereas, libraries serve as a storehouse for the knowledge of the world, keeping this information safe for generations to come; Be it so resolved that Hancock County observes the week of April 17-23 as National Library Week and recognizes the value of the library in the lives of Mississippians.

Mayor, Bay St. Louis

Mayor, Waveland

### FILMS AT UM

Morley Safer, correspondent for the CBS weekly program "60 Minutes," recently interviewed Fish Bait Miller, Doorkeeper of the U.S. House of Representatives until 1975, at Ole Miss. Miller is the author of a forthcoming book on his Washington experiences and donated his papers and other memorabilia to the University Archives at Ole Miss following his return to private life in 1975.

### RECEIVE AWARDS

Two Ole Miss student publications, The Daily Mississippian newspaper and Mississippi Magazine, recently took top honors in their categories at the Region 12 meeting of the Society of Professional Journalists, Sigma Delta Chi in Memphis. Region 12 includes Arkansas, Louisiana, Mississippi, and western Tennessee; regional winners will be entered against other regional winners in national contests.

## WAKE UP

It should be obvious that there are only two ways to make any real money in Mississippi, go into business for yourself or take a commission sales position. I am talking about a full time professional sales career with the oldest and largest organization of its kind in existence. I am talking about an opportunity to build a consistently growing income which is based on the ability of yours that you have been dying to use.

Benefits include pension plan, free life insurance plan, major health insurance and personal as well as professional growth. This could be that "OPPORTUNITY TO BREAK INTO SALES WHICH YOU HAVE OFTEN THOUGHT ABOUT."

We furnish a complete training program, sales experience not necessary; some of our most successful people have no background in sales.

## Carl Schott Named Top Star Student in Mississippi

BY LARRY NASH

Carl Schott, one of seven children of the Vincent Schott family of Waveland was named the states top Star Student last Wednesday in Jackson.

Schott had been notified to attend the meeting because of being one of the 20 finalists chosen in the state. Sponsored by the MEC the two day convention was highlighted by Schott being named the top student in the state of Mississippi.

Approximately 200-300 schools entered into the contest from across the state. To enter a senior student must have had an extremely high score on the ACT Test and a high grade point average in the classroom. Carl achieved both of these besides being a National Merit Scholarship Semi-Finalist and possibly

even a Finalist. The results have not yet been released on that matter.

Carl is presently serving as president of the National Honor Society at St. Stanislaus. He is also a member of the school band, yearbook staff, the Aviation Club, and is a past member of the Spanish Honor Society.

Carl wants to go into Engineering and has his choices of colleges down to three. They are Tulane, Ole Miss, and Georgia Tech. He is currently undecided as to what field of Engineering he will follow and thinks he will make up his mind after his first or second year at school.

The school of St. Stanislaus and the entire County of Hancock is extremely proud of his achievement as it shows the quality of education that is being performed in our area.

CARL SCHOTT

## Scout leaders to attend regional

The South Central Region, Boy Scouts of America, will hold its annual meeting in San Antonio, Texas, on May 4-6, 1977, according to Glendon Johnson of Galveston, Texas, President of the South Central Region.

Attending from the New Orleans Area Council, Boy Scouts of America, will be a number of volunteers and members of our professional staff, according to R. Alden Penderly, President of the New Orleans Area Council.

In addition to members of our local council staff, there will be members of the National staff from North Brunswick, New Jersey. The meeting promises to be an

outstanding event.

Harvey L. Price, Chief Scout Executive of the Boy Scouts of America, will highlight the meeting, according to Glendon Johnson.

A special ladies' program has been planned, including tours of missions, museums, and other historical places.

The Regional Annual Meeting is held every two years for the purpose of training, updating, and special recognition for volunteer Scouters within the region, which includes Texas, Arkansas, Oklahoma, Louisiana, New Mexico, and parts of Colorado, Arizona, Utah, and Mississippi.

A special SAN ANTONIO

NIGHT is planned for Thursday evening, May 5.

The meeting will give special attention to Cub Scouting, Scouting, and Exploring as it relates to training, finance, activities, advancement, and long range planning. Interested Scout Leaders should contact the Scout Service Center at 837-0780.

## Trouble shooters head for Jackson

Pearl River Junior College, Hancock County Vocational-Technical Center Trouble Shooters Head for State Contest.

A pair of Pearl River Junior College, Hancock County Vocational-Technical Center auto mechanics students have qualified for the state finals of the Trouble Shooting Contest to be held at Jackson, Mississippi, on May 5, 1977.

William A. Tartavouille, 17, and Willie A. Tartavouille, 18, will be looking for trouble under the hood of a new car, that day, according to Billy Ray Blackwell, instructor of the auto shop program at the school. "I'm proud of our students. They beat out tough competition on the preliminary written exams to win the right to be in the state contest," said Mr. Blackwell.

The team was selected for the written test because the two students were among the best in the school's auto shop program. They scored very highly in the exam which tests automotive knowledge learned through classroom work and study. In the state contest for which they qualified, other technically-skilled student teams will race them in an effort to fix a new Plymouth car which has been deliberately "bugged".

State competition winners will make an expense-paid trip to Atlanta in June to compete in the national finals with representatives of the other 49 states.

Teams compete first in

regional contests with written exams. The highest scorers then participate in the hands-on competition for generous rewards and the state championship. State Champions vie with other teams from around the country for college scholarships and other prizes at the national finals, to be held this June in Atlanta.

A Trouble Shooting team consists of two students. At the state contest, each team

works on a car in which malfunctions have been deliberately placed. Within a time limit, the teams race each other to find and fix the bugs and restore the car to perfect running order.

"The Trouble Shooting Contest is good experience for more than the winners," said Mr. Blackwell, Vo-Tech Auto Mechanics Instructor. "They show our students that the automotive service field is a good rewarding career, and that there are good paying jobs available to students with

technical skill and knowledge."

More than half the Trouble Shooting Contest participants have been placed in full- or part-time jobs as auto mechanics, according to an auto company's statistics. Other direct benefits of the program are the college scholarships for the national winners and active support for the technical education of the public schools. The car-driving public also benefits due to the availability of better-trained technicians for maintenance and service work.

## John A. Klein ex-Army adjutant general dies

Retired Maj. General John A. Klein, 80, former Adjutant General of the Army, died recently at Tripler Army Medical Center in Honolulu after a brief illness.

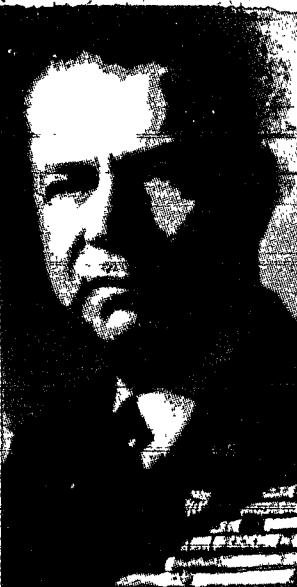

Klein, whose military career lasted 40 years, was the brother of Frank Klein, Sr. of Bay St. Louis. He served as adjutant general, the Army's chief administrative officer and custodian of its documents, from June 1934 to December 1964, when he retired. He had lived in Hawaii for the past few years.

A native of Vicksburg, Miss., he enlisted as a private in the Mississippi National Guard in 1914. Three years later he was made a second lieutenant in the regular Army.

In World War I he was an infantry platoon commander in France with the American Expeditionary Forces.

He served as adjutant general with the Third, Fourth and Ninth Armies in Europe during World War II, and later with the Second Army at Fort Meade, Md.

From 1948-1949, he was adjutant general with the headquarters of the European Command, and from 1951-1954

deputy adjutant general of the Army here in the District.

In the course of his career, Klein was awarded the Legion of Merit with Oak Leaf Cluster; the Belgian Croix de Guerre with Palm; the Most Excellent Order of the British Empire; the French Legion of Honor; the Luxembourg Croix de Guerre and the Netherlands Order of Orange-Nassau.

by L. S. (Dec) Elliott

ONE OF YOUNGER sportsmen is Jerry Seuzeneu. His sports are fishing, hunting and an occasional game of Booyah. Gets his share of fish and game but he's hard to beat at Booyah, he claims.

Fishing is improving somewhat but is not up to its best yet. Now that March is over, we won't have to fight much wind. April brings in showers but you put up with them. What is fishing without a little rain.

Bass are beginning to strike and are beginning to hit surface baits when one can find clear water. Most streams are still on the dirty side. I predict without rain the bayous and rivers will clear up. Pearl River is still high and muddy.

Have been catching some nice size perch most everywhere. The way to catch them now is with earth worms, using a perch pole and small cork. They are beginning to spawn. Caught some big blue gills and shell crackers Thursday. Fish in shallow water, but be sure to use a small hook, so they can take it. Very few salt water fish are being caught right now. Should get better soon.

Heard from Bill Stewart, he wants some perch to barbecue. He is one of the best at that trade. Will save some Bill.

Richard Davis has been coming to Clermont Harbor since 1945. He is now retired and does a lot of fishing.

Dave and Mary Caillier live at Lakeshore. Spend a lot of time fishing and crabbing. Wonderful people.

Al Cameron was telling us of the shell crackers he has been catching. All good size, he said. Al is one of our best fishermen. His daddy is next.

Joe Roppola is another fisherman who gets his share of fish. Goes on every occasion.

Mr. and Mrs. M. G. Margotta are another fishing couple. Their friends are Mr. and Mrs. Bernard Deliberto. Buddy Deliberto is their son. Buddy is with the Time Picayune and an announcer on Channel 8 in New Orleans. The Margottas have a home in Clermont Harbor.

Jerome diBenedetto a bus driver and George Walker a mechanic were the guests of Nino Enterante on a trip to the Bay last week. They said the would be over soon to do some fishing. Come on over fellows.

Louis Burghard, an ardent fisherman was telling us of the large flounder he caught off the Legion Pier. His wife Louise and children, Ren, Ivan, Celeste and Katy hail from Crystal Springs, Miss., but now live on Carroll Ave. in Bay St. Louis. They have been here almost a year.

Both hard and soft crabbing has been on the bad side. Unusual this time of the year. Blame it on the weather mess.

We had beautiful weather for Easter. Went fishing a couple of days. Saw plenty skimmers everywhere even though the water was pretty chilly.

Met one boat whose occupants had caught half an ice box of perch. Proves that they are being caught now. To my

## Tigers Stung by Hornets

The visiting Bay High Tigers were stung by the Hornets of East Central on Monday afternoon by a score of 19-4.

Coach Claude Yarborough's Tigers who are now 1-11 for the year had to use three pitchers in the game. Frank Henry was the starter and 31-3 innings, and Blaine Thomas pitched 12-3 innings and Ricky Manieri came in for the last 1 and 1-3 innings.

The Tigers did have two bright spots however; and they were a three run home run in the first inning by Ivan Cobb his first of the year in lead centerfield. Cobb also

hit one in the third, but the Tigers first baseman was robbed by an outstanding over the fence catch by the Hornets centerfielder. Bill Ginn also stroked a home run over the center field wall his second of the year.

Bill Ginn, the Tiger senior center fielder is now averaging 313 for the year at the plate, with freshman Scott Davis in second place with 278 and junior left fielder Roy Rhur being in third place with an average of 258.

The Tigers will play Ocean Springs on Friday at 3 p.m. at the Tiger Field.

## Little League try-outs set for Saturday at Bay

The Bay St. Louis Little League has announced that both boys and girls wishing to try for slots on league teams should report to the McDonald Ball Park on Ulman and Dunbar this Saturday.

Boys and girls between the ages of 9 and 12 should report from 10 a.m. to 12 noon. Prospective players aged 11 and 12 should report between 1 and 3 p.m.

Tryouts will be afforded all reporting players, league spokesmen have announced. Children not preregistered through school can register at this time but should have their birth certificates with them. Parents requiring more information can call 467-3957.

## Waveland's Little League to "play ball" on Saturday

The first game of Waveland's Little League 1977 Baseball Year, will be played Saturday afternoon at Elwood Bourgeois Memorial Park on the corner of Waveland and Central Avenues.

The opening pitch will be hurled at 1 p.m., as the first game gets underway. Eight teams will fight for the series play-offs.

A parade to leave Our

Shopping Center at 10 a.m. will head down Waveland Avenue to the Beach, cut eastward along the Beach and swing back north on Coleman, and thence back to the ball park.

Further information concerning the league and its activities may be obtained from Mrs. Margaret Goodwin at 467-8488.

## How good neighborly can Winn-Dixie get?

### AN O-J BREAK

A refreshing beverage that quenches thirst as well as the craving for something sweet is orange juice. Substitute orange juice for soft drinks, save money and reap the nutritional benefits besides. Our own brand, Astor Frozen Orange Juice, will be good to your budget and to your family's well-being. Its built-in natural sugar will soothe the sweet tooth, too.

SEA COAST ECHO, APRIL 14, 1977-1C

## Brothers of the Sacred Heart honor jubliarians

Honored at a community celebration on Easter Sunday at Bay St. Louis, Mississippi, were 6 Brothers of the Sacred Heart. Commemorating 70 years of service in the Order was Brother Julius Ford. Celebrating their 50th anniversary were Brother Ephrem Falgoust, Brother Gunter Aucoin, and Brother Eugene Staub. Marking 25 years as Brothers were Brother Alan Drain and Brother Brendan Butler. During Holy Mass in the St. Stanislaus Chapel attended by over 100 Brothers of the New Orleans Province, the Jubiliarians renewed their vows. A banquet followed the Mass.

Brother Julius Ford, a native of Merrigold, Mississippi, joined the Brothers at Metuchen, New Jersey, on October 11, 1907. He has been stationed in Alabama, Indiana, Louisiana, Mississippi, New Jersey, New York, and Oklahoma. As present, Brother Julius is retired at Catholic High School in Baton Rouge, Louisiana.

Brother Ephrem Falgoust entered Metuchen from St. Joseph's, Louisiana, on March 1, 1927. He has been stationed in Louisiana, Mississippi, and New Orleans. He has also taught at Bay St. Louis, at Baton Rouge, and at Thibodaux, La., and has served as prefect at Natchez, Miss. Brother Ephrem is now stationed at St. Stanislaus in Bay St. Louis.

Brother Gunter Aucoin (formerly Brother Contran) entered the Brotherhood from St. Vincent's Academy in Baton Rouge, Louisiana, on

March 1, 1927, at Metuchen. Presently stationed in Mobile, Alabama, Brother Gunter has seen service as teacher in Alabama, Louisiana, Mississippi, New Jersey, New York, and Oklahoma.

Brother Eugene Staub, who attended St. Aloysius High School in New Orleans, La., joined the Order on June 24, 1927, at Metuchen. During his half century of service, he has taught in Indiana, Louisiana, Mississippi, New Jersey, New York, and Oklahoma. He is presently on the faculty at Brother Martin High School in New Orleans.

Brother Alan Drain (formerly Brother Nathaniel) attended St. Mary's School in Mobile, Alabama, and entered the Order at Daphne, Alabama, on September 5, 1952. Through the years he has taught in Louisiana, Mississippi, and Texas. Now Brother Alan is on the Brother Martin High School faculty in New Orleans.

Joining the Brothers at Daphne, Alabama, from Our Lady of Lourdes School in New Orleans on September 6, 1952, was Brother Brendan Butler. A native of Hattiesville, La., Brother Butler was stationed in Alabama, Mississippi, and Louisiana. At the present time, he is a member of the faculty at Brother Martin High School in New Orleans.

### news in brief

**CIVIC ASSN. ELECTIONS**  
Annual election of officers will take place at next session of the Waveland Civic Association set for 7:30 p.m., today, Thursday, at Trapani's Knock Knock on US-90.

BROTHER GUNTHER AUCOIN

## Area teens aid muscular dystrophy

The Youth of Muscular Dystrophy Association and the Waveland Civic Association will sponsor a rummage sale to benefit the Muscular Dystrophy Association, 9 a.m. to 5 p.m., this Friday and Saturday, April 15 and 16, in the Waveland Civic Center. Donations of all types are needed for the sale, and funds realized will be used towards defraying cost of a one-week

summer camp for children and teenage muscular dystrophy victims in Mississippi. Persons having donations are invited to call for their pickup to 467-4997, 467-4933, or 467-7892.

The camp will be staged from May 29 through June 4 at Camp Henry S. Jacobs near Utica. Volunteer counselors, 16 years of age or older, are

needed on the basis of one counselor per each camper. Counselor expenses are limited to transportation and here again the Waveland Civic Association has agreed to help. Further information regarding counselor application forms, transportation information and the like, is available from Jimmy Lagasse at 467-4997.

### news brief

**ART SHOW AND LUNCHEON**  
A luncheon and art show to benefit the Diamondhead Parents Bus Association, is being held from 10 a.m. to 2 p.m., Wednesday, April 27, at the Country Club. Donation is \$5 and further information is available at 255-1626.

### "THE NARROW WAY"

"Because strait is the gate, and narrow is the way, which leadeth unto life, and few there be that find it." (Matt. 7:14)

Christianity is a narrow religion. Make no mistake about it. This must be the case because the truth is always narrow. Jesus defined his way as a narrow one. Possessing divine insight, our Lord knew that the multitudes would not care enough or love Him enough to believe, obey, and follow Him faithfully unto death (Rev. 2:10).

Jesus knew that the majority would favor the popular, the convenient, the comfortable kind of religion. To truly follow and honor Christ, however, one must forsake the popular, the convenient and the comfortable. So Jesus instructed "If any man will come after me, let him deny himself and take up his cross and follow me (Matt. 16:24).

Few are willing to deny themselves and walk the narrow way that leads unto life eternal. But to those who are great, "Come, ye blessed of my Father, inherit the kingdom prepared for you from the foundation of the world." (Matt. 25:34).

In which way are you walking? Is it the narrow way that leads to life or the broad way that leads to destruction?

## CHARLES WILLIAMS tells about battling the big guys

Many of my close friends and customers have asked how it's possible for me to compete with all the major brand gas stations that are owned or controlled by the big oil companies.

The answer is simple: I buy directly from a big independent oil company—Murphy Oil.

Now, Murphy Oil is not nearly as big as Shell, Exxon, Texaco, Mobil and the other huge international oil companies... but Murphy Oil is no small potatoes, either!

Murphy Oil is an independent company that's a leader in off-shore drilling, undersea exploration, and produces oil around the world. They also operate their own refineries to make gasoline for us independent dealers who sell Spur gas.

Nice thing about Murphy Oil being big, (but not too big) is that they make a top quality gasoline and sell it directly to me without going through a middleman.

So to my close friends and customers: Don't worry about me. As long as Murphy Oil can help me keep the prices down at the pump by selling to me directly... I'll keep selling you Spur.

## AAA honors Bay St. Louis

The City of Bay St. Louis has been honored by the American Automobile Association for its outstanding efforts in reducing pedestrian accidents and deaths in the city.

The city was presented a Pedestrian Safety Citation by Clem Buckham, traffic safety manager of the Central Gulf Division, AAA. Accepting on behalf of the city were Mayor Warren Carver and Police Chief Douglas Williams.

The award was given as part of AAA's annual Pedestrian Safety Inventory, intended to focus community's attention on its own pedestrian safety records and programs.

Hank Downey, manager of the Mississippi Region, commented, "A record of 2,462 cities participated in the 37th annual nationwide AAA safety program."

"The Pedestrian Safety Inventory Program is the only one of its kind on the federal, state, and local level."

"Each participating town, city, county and state is judged on its death and injury records and effectiveness of its pedestrian safety programs."

"Awards and citations are presented on the basis of low pedestrian death and injury figures and on accident prevention programs. Evaluations are made in seven key areas—main-

tenance of efficient accident records, safety legislation, enforcement, traffic engineering, traffic safety organization, quality of school traffic safety programs, and active public information and

education programs.

Downey concluded, "AAA's thanks go to state and local officials who helped us compile the information necessary to complete this inventory. We are looking forward to their help in the future. Overall, though, the citizens must also be congratulated for helping their cities save lives."

### Pearlington notes

BY ONA MCARTHUR  
Happy birthday to Mr. and Mrs. Wilber McArthur on their 57th wedding anniversary.

Happy birthday to Abbie McGuire and Mr. Earl Holden.

Ronnie and Mariette (Wyman) Murray are the parents of a baby girl Kellie Michelle, weight 7 lbs. The grandparents are Mr. and Mrs. Clarence Wyman, Jr., and Mr. and Mrs. Don Murray.

Get-well wishes to Earl Holden in Bay St. Louis Hospital.

Get well to Jesse Wimby who was carried by Mobile Medic from Davis' Grocery to the Veteran Hospital in Gulfport, Saturday.

Alice Maxwell was a visitor to the Jim Foxworth family Thursday to Sunday and Sunday visitors to the Foxworths were Mrs. Ida and Clara Both of Hammond, La., and Mr. and Mrs. J. T. Foxworth of Chalmette, La.

The Three through Five year old Sunday School Class of Pearlington First Baptist Church enjoyed an Easter Party given by their teachers Jerri Foxworth and Ona Mae McArthur in the Foxworth home. Children present were Cindy Wilkinson, Chrystal Frazier, Gina and Dana Reynolds, Daniel Frickie, Stephanie Frazier, Deedra and William Foxworth, Helpers were Karen Frickie, Elaine Frazier and Alice Maxwell.

Mr. and Mrs. John Lewis of Cosby, Tenn. were visitors to Mr. and Mrs. L. C. Cuevas and Marcelle.

Rev. Walt Porter, pastor of Pearlington and Clermont Harbor United Methodist Churches baptized into the Clermont United Methodist on Easter, Tonya, daughter of Mr. and Mrs. Calvin Shanefelt, the godparents are Billy Boswell and Shirley Matthews. Also baptized on Easter was Timmy, son of Mr. and Mrs. Paul Pursley, Jr. Godparents are Herby Pursley and Donna Boughman.

Our sympathy to family and friends of Mr. Frank Burton, husband of Sussie Burton. Funeral services were held on Easter Sunday.

Family and friends of the Sawsey Family are invited to the sixth annual reunion to be held on Sunday, April 17 at NASA Test Site. Picnic Lunch at 10 o'clock.

Clem Buckham, center, traffic safety manager of the Central Gulf Division of the American Automobile Association, presents a plaque to Mayor Warren Carver, right, and Police Chief Douglas Williams, for their city's efforts in pedestrian safety. AAA's annual Pedestrian Safety Inventory program is designed to focus a community's attention on its pedestrian safety records and programs.

### Gulfview school spring festival

The 1977 Gulfview School Spring Festival will be held this Saturday April 16 at the school cafeteria beginning at 3 p.m.

The crowning of the Royalty will take place at 4 p.m. There will be booths, prizes, games, and good things to eat for all. Bring the whole family.

### Pediatric rooms are

ready and

The Bay-Waveland Junior Auxiliary has just completed redecorating the two pediatric rooms at Hancock General Hospital. The rooms were wallpapered to reflect a youthful and attractive decor for the small children who will occupy the rooms. One of the rooms has Raggedy Ann and Andy and the other room has monkeys.

Also, each child will be given bedside bags filled with items (Toothbrush, toothpaste, soap and small items to play with) and the Hancock General Hospital's Lady Auxiliary is helping in the construction of the bags and the Hospital staff will distribute them.

The Pediatric room fix-up is a service project for the Bay Waveland Junior Auxiliary and the project will be beneficial to all of the children entering the hospital.

### Students receive \$100 scholarships

HATTIESBURG—University of Southern Mississippi Achievement Scholarships of \$100 have been awarded to three students in Bay St. Louis.

Recipients are: Julie Martinovich, daughter of Dr. and Mrs. Andrew K. Martinovich, Jr. who will be studying biological science; Mark J. McCarthy, son of James J. McCarthy will be studying science and technology and Ralph E. Ott, son of Lucius H. Ott will be in pre-medicine.

### Pass Christian garden club meets

The Pass Christian Garden Club met at the home of Mrs. Harvey Blankenship at 1:30 p.m. April 7, 1977.

The President extended a warm welcome to guests and prospective members, after which she expressed her deep appreciation of the cooperation she had received from the members during the current fiscal year.

After the routine reports the President called for the Nominating Committee's slate of officers for the coming fiscal year 1977-78. Unanimously elected were Mrs. J. Parnell McKay, President, Mrs. Jean Hammett, 1st Vice President, Mrs. Logan Cline, 2nd Vice President, Mrs. O. B. Trepagnier, Corresponding Secretary, Mrs. Charles Spillman, Recording Secretary, Mrs. Crane P. Fitzwilson, Treasurer, Mrs. William M. Curran, Parliamentarian, and Mrs. Charles Darrell, Historian.

The President then announced that County Agent Mr. Fleming will be conducting a workshop April 21 and 22nd at Edgewater Plaza from 12 Noon to 9:00 P.M. This clinic on plant problems is free. Also announced was an antique show at Natchez May 10.

The meeting was then turned over to Mrs. Frances Martin and Mrs. Virginia Blankenship for an informative talk about and display of fresh flowers in the home. The emphasis on simplicity was beautifully illustrated by flower arrangements in ever room in Mrs. Blankenship's home. The meeting concluded with the serving of delicious refreshments.

### Surprise shower

Mrs. Charles Bourgeois was honored with a surprise baby shower March 30, at the home of Mrs. Diane Perkins on Villere Street, Waveland.

Hostesses for the occasion were: Mrs. Benedict Bourgeois, Mrs. Lionel Bourgeois and Mrs. Perkins. A pink and blue color scheme was employed throughout and the honoree was presented her gifts from a decorated baby crib.

Enjoying the celebration were: Mrs. Dot Nicholson and daughter, Mrs. Anthony Russo, Mrs. Melvin Stoltz, Mrs. Pat Miller and Amanda; Mrs. David Garcia and Misses Elizabeth, Theresa, and Mary Garcia; Mrs. Lloyd Garcia, Mrs. Susan Kiehm, Mrs. Chris Nicolosi, Mrs. Louis Bourgeois and Barbara Ann, Mrs. Allison McClosky, Miss Linda Bourgeois, Mrs. Richard Bourgeois, and Mrs. Karen Dardar.

## 4-H News

By WILLIAM O. GOODWIN  
EXTENSION 4-H  
YOUTH AGENT

### 4-H'ERS REPORT BREAD MAKING ON UPTREND

Home bread making is on the uptrend. Spurred by renewed interest in the nutritive values of foods, more and more consumers are turning out mouth-watering, nutritious breads in their own kitchens.

Homemade breads, like a deliciously fruit orange rye loaf (see recipe below), supply many of the body's daily requirements for vitamins and minerals.

Nutrition-conscious young people can learn all about bread making in the national 4-H bread program.

In practical projects supervised by the Cooperative Extension Service, 4-H members 9-19 acquire and demonstrate skills in planning, preparing and serving breads and cereals that are both good tasting and good for them.

Boys and girls explore the scientific principles of bread making: how to select the proper ingredients, correct temperatures and difference in flours.

Foreign breads add an international flavor to family meals and snacks as 4-H'ers learn the significance of grain products in diets and cultures around the world.

Members can bake their way to honors that include up to four medals per county, one expense-paid trip to National 4-H Congress per state, and six \$800 scholarships at the national level. Awards are donated by Standard Brands and arranged by the National 4-H Service Committee.

Winners are selected by the Extension Service. More information on the 4-H bread program is available from county extension agents.

Easy-to-bake orange rye bread is great as a nutritious toast for breakfast, in sandwiches or for snacking.

### ORANGE RYE BREAD

(Makes 2 loaves)

2 1/2 cups warm water (105 degrees F. - 115 degrees F.)  
2 packages active dry yeast  
1/2 cup firmly-packed dark brown sugar  
4 teaspoons salt  
3 tablespoons softened margarine  
3 tablespoons grated orange peel  
1 1/3 cup dark molasses  
3 1/2 cups unsifted rye flour  
5 1/2 to 6 1/2 cups unsifted white flour

Measure warm water into large warm bowl. Sprinkle yeast; stir until dissolved. Stir in sugar, salt, margarine, orange peel, molasses and rye flour. Beat until thoroughly blended. Stir in enough white flour to make a stiff dough.

Turn out onto lightly floured board; knead until smooth and elastic; about 10 to 15 minutes.

Place in greased bowl, turning to grease top. Cover; let rise in warm place, free from draft, until double in bulk, about 1 hour.

Punch dough down; divide in half. Roll each half to a 14 x 9-inch rectangle. Shape into two loaves. Place in 2 greased 9x5x3-inch loaf pans. Cover; let rise in warm place, free from draft, until doubled in bulk, about 1 hour and 10 minutes.

Bake on lowest rack position at 375 degrees F. about 40 minutes, or until done. Remove from pans and cool on wire racks.

RESEARCH WINNERS - George M. Ansel (C), student at Warren Central High School in Vicksburg, was chosen Regional Scholarship Winner at the Mississippi Regional Junior Science and Humanities Symposium held recently at The University of Mississippi. He will receive \$2,000 and present his research paper at the national meeting at West Point, N.Y. in May, along with 41 other regional winners competing for five top-papers, which will then be presented at the International Science Symposium in London, England in August. Dr. Sherwood Githins Jr. (L), director of the national office of the Symposium in Durham, N.C., presented the scholarship to Ansel, and \$100 academic achievement awards to three other winners from Mississippi who will attend the national meeting, Paul K. McLain of Monticello High School; first alternate Valerie Jean Young of Bay Senior High, Bay St. Louis; and Mary Shipp Sanders, Jackson Prep.

## Home Economic Notes

By NORINE BARNES,  
Extension Home  
Economist

### CONSIDER ALTERNATIVES FOR COFFEE

If the price of coffee is taking the lift out of your coffee break, you should consider alternatives.

A cup of regular coffee made with some brands costs about 6 1/2 cents, according to figures prepared by the Agricultural Research Service's Consumer and Food Economics Institute. A cup made from less expensive brands costs about 5 cents, and a cup of instant coffee costs less than 2 1/2 cents.

If consumers are willing to switch to tea, they can cut costs further. Tea costs less than 1 1/2 cents a cup, depending on how you make it.

The cost of coffee has almost doubled in the past year, increasing by as much as \$1.46 per pound in some areas. The majority of adults drink coffee every day.

Even with inflated prices, most people are likely to drink coffee. But there are things they can do to hold down the cost. They can also switch to beverages that cost more, but provide nutrients that a cup of black coffee will not.

For those who intend to continue drinking coffee, here are a few recommendations: Avoid wasting it. Brew only as much as you will drink. Try making coffee a little weaker than usual. You may like it just as well.

Compare brand prices. Use regular instant coffee. Per cup of beverage, it costs only half as much as ground and less than freeze-dried coffee, too.

Compare the unit prices (cost per ounce or per pound) of different sized cans and jars

of coffee to find the best buys.

Unit prices are shown on the shelves in many supermarkets. To figure costs, they divide the price per unit by the number of units in the unit will yield. For example, a pound of regular coffee will make 50 cups of coffee on the average. At \$3.19 a pound, a cup of coffee costs 6.4 cents.

For those who are reducing coffee intake and trying another beverage:

Drink tea or a cereal beverage at one-third or one-half the cost of coffee. You can save more money by making tea with loose tea leaves or instant tea instead of tea bags.

Use bouillon occasionally, unless you are on a low-salt diet.

Drink milk made from nonfat dry milk powder. It costs less than coffee.

Unlike coffee, it provides important nutrients - calcium, protein, riboflavin and many others. A six-ounce cup of milk made from nonfat powder provides about 70 calories. Coffee, without milk and sugar added, provides essentially no calories.

Use hot chocolate made from a home recipe or a commercial mix. It costs a little more than coffee, but furnishes the nutrients of milk as well as some iron from the cocoa. A six-ounce cup provides about 140 calories.

### TIPS ABOUT THREAD TO MAKE SEWING EASIER

A seamstress' choice of thread influences the difficulty she may encounter

when making a garment.

Following are thread tips which make sewing easier.

Check yardage on spools to be sure you buy enough to make the garment.

Select a color slightly darker than the fabric; when stitched, threads look lighter.

Use both colors of a check or plaid - one for the top and the other for the bobbin.

For easy threading, place something white behind the needle eye. Cut thread on a slant, and never break or bite the thread.

When sewing by hand, use a short length, about 20 inches. Don't use a double thread; it tangles easily.

Insert the needle with an eye large enough for the thread to pass through easily.

From the thread end cut from the spool into needle eye and knot.

Pull first stitch into a fold to conceal the knot.

If thread breaks when sewing on machine, the needle point may be rough. Try a new needle.

Pull both the top and bobbin threads to back of presser foot before stitching.

Wind the thread evenly on an empty bobbin.

For perfectly balanced stitch use identical type thread for both top threading and bobbin.

Fasten loose ends of thread to spool with cellophane tape to prevent tangling.

## Coming Events

Busy Fingers' Extension Homemakers Club will meet at 9:45 a.m. Tuesday, April 19, in extension auditorium. Leroy Modenbach of Goodwill Industries will be guest speaker.

All members are asked to attend.

Mrs. Norine Barnes, extension home economist, will conduct the bread and dough art program Monday, April 18, at American Legion hall, Necessa Crossing.

Everyone is invited.

A trash to treasure program will be presented by Mrs. Norine Barnes, extension home economist, at 10 a.m. Tuesday, April 19, at Flat Top Community Center.

Everyone is invited.

A trash to treasure program will be presented by Mrs. Norine Barnes, extension home economist, at 10 a.m. Tuesday, April 19, at Flat Top Community Center.

Everyone is invited.

The second lesson of the Sew with Knits series, will be given by Mrs. Norine Barnes at 10 a.m. Friday, April 22, in extension auditorium, Necessa Avenue.

Anyone who wants to attend is asked to call 467-5455.

The monthly adult Saints and Sinners dance will be held in St. Clare's Parish hall, Waveland, Saturday, April 23, from 9 p.m. to 1 a.m. Music will be by the Dixieland Saints Jazz Band of New Orleans.

Further information is available by calling Rose Garza at 467-5088 or Clarisse Villere, Villere's Lounge.

Marine Private First Class Nolan C. Bryant, son of Mrs. Lovie L. Barbetta of Rt. 3, Box 414, Indian Ave., Bay St. Louis, has completed the Basic Helicopter Course.

The six-week course was conducted at the Naval Air Technical Training Center, Millington, Tenn. Students received instruction on the operation of helicopters and studied mechanic training, the theory of rotary-winged flight and power plant principles. In addition, Bryant underwent five days of practical application on transmission systems, flight controls and general helicopter maintenance.

A 1976 graduate of Bay Senior High School, he joined the Marine Corps in September 1976.

### CHARLES WILLIAMS tells about

# battling the big guys

Many of my close friends and customers have asked how it's possible for me to compete with all the major brand gas stations that are owned or controlled by the big oil companies.

The answer is simple: I buy directly from a big independent oil company... Murphy Oil.

Now, Murphy Oil is not nearly as big as Shell, Exxon, Texaco, Mobil and the other huge international oil companies... but Murphy Oil is no small potatoes, either!

Murphy Oil is an independent company that's a leader in off-shore drilling, undersea exploration, and produces oil around the world. They also operate their own refineries to make gasoline for us independent dealers who sell Spur gas.

Nice thing about Murphy Oil being big, (but not too big) is that they make a top quality gasoline and sell it directly to me without going through a middleman.

So to my close friends and customers: Don't worry about me. As long as Murphy Oil can help me keep the prices down at the pump by selling to me directly... I'll keep selling you Spur.

MURPHY  
OIL CORPORATION

Keeping the independents, independent

## AAA honors Bay St. Louis

The City of Bay St. Louis has been honored by the American Automobile Association for its outstanding efforts in reducing pedestrian accidents and deaths in the city.

The city was presented a Pedestrian Safety Citation by Clem Buckman, traffic safety manager of the Central Gulf Division, AAA. Accepting on behalf of the city were Mayor Warren Carver and Police Chief Douglas Williams.

The award was given as part of AAA's annual Pedestrian Safety Inventory, intended to focus a community's attention on its own pedestrian safety records and programs.

Hank Downey, manager of the Mississippi Region, commented, "A record of 2,462 cities participated in the 37th annual nationwide AAA safety program."

"The Pedestrian Safety Inventory Program is the only one of its kind on the federal, state, and local level."

"Each participating town, city, county and state is judged on its death and injury records and effectiveness of its pedestrian safety programs."

"Awards and citations are presented on the basis of low pedestrian death and injury figures and on accident prevention programs. Evaluations are made in seven key areas - maintenance of efficient accident records, safety legislation, enforcement, traffic engineering, traffic safety organization, quality of school traffic safety programs, and active public information and education programs."

Downey concluded, "AAA's thanks go to state and local officials who helped us compile the information necessary to complete this inventory. We are looking forward to their help in the future. Overall, though, the citizens must also be congratulated for helping their cities save lives."

The award was given as part of AAA's annual Pedestrian Safety Inventory, intended to focus a community's attention on its own pedestrian safety records and programs.

Hank Downey, manager of the Mississippi Region, commented, "A record of 2,462 cities participated in the 37th annual nationwide AAA safety program."

"The Pedestrian Safety Inventory Program is the only one of its kind on the federal, state, and local level."

"Each participating town, city, county and state is judged on its death and injury records and effectiveness of its pedestrian safety programs."

### Military Mention

April 6 - Navy Lieutenant Wayne J. Leleux, son of Mrs. Lily M. Leleux of 500 E. Second St., Picayune, Miss., participated in the U.S. Sixth Fleet operation "National Week XXII."

He is the combat information center officer of the guided missile cruiser USS Albany, homeported in Gaeta, Italy.

"National Week XXII" was an eight-day exercise involving more than 30 Sixth Fleet ships, 12

squadrons and a marine battalion landing team. The exercise included simulated combat operations, emphasizing antisubmarine and air defense, amphibious warfare and logistics support elements at sea. The exercise took place in the Tyrrhenian and Ionian Seas, near Sicily. A 1958 graduate of North Carolina State University, Raleigh, N.C., with a bachelor of science degree, he joined the Navy in February 1962.

The food price rise has come home to the kids. Pizza has gone up 5 cents a slice.

It's easy to dream-up nut-burger recipes when you're fueled with prime steak on your own menu.

### Pearlington notes

BY ONA MCARTHUR  
Happy Anniversary to Mr. and Mrs. Wilber McArthur on their 57th wedding anniversary.

Happy birthday to Abbie McGuire and Mr. Earl Holden.

Ronnie and Mariette (Wyman) Murray are the parents of a baby girl Kellie Michelle, weight 7 lbs. The grandparents are Mr. and Mrs. Clarence Wyman, Jr., and Mr. and Mrs. Don Murray.

Get well wishes to Earl Holden in Bay St. Louis Hospital.

Go to Jessie Wimsby, who was carried by Mobile Medic from Davis' Grocery to the Veteran Hospital in Gulfport, Saturday.

Alice Maxwell was a visitor to the Jim Foxworth family Thursday to Sunday and Sunday visitors to the Foxworths were Mrs. Ida and Clara Booth of Hammond, La., and Mr. and Mrs. J. T. Foxworth of Chalmette, La.

The Three through Five year old Sunday School Class of Pearlington First Baptist Church enjoyed an Easter Party given by their teachers Jerri Foxworth and Ona Mae McArthur in the Foxworth home. Children present were Cindy Wilkinson, Chrystal Frazier, Gina and Dana Reynolds, Daniel Frickie, Stephanie Frazier, Deedra and William Foxworth. Helpers were Karen Frickie, Elaine Frazier and Alice Maxwell.

Mr. and Mrs. John Lewis of Cosby, Tenn. were visitors to Mr. and Mrs. L. C. Cuevas and Marcelle.

Rev. Walt Porter, pastor of Pearlington and Clermont Harbor United Methodist Churches baptized into the Clermont United Methodist on Easter, Tonya, daughter of Mr. and Mrs. Calvin Shanefelt, the godparents are Billy Boswell and Shirley Matthews. Also baptized on Easter was Timmy, son of Mr. and Mrs. Paul Purley, Jr. Godparents are Herby Purley and Donna Boughman.

Our sympathy to family and friends of Mr. Frank Burton, husband of Sussie Burton. Funeral services were held on Easter Sunday.

Family and friends of the Sawsey Family are invited to the sixth annual reunion to be held on Sunday, April 17 at NASA Test Site. Picnic Lunch at 10 o'clock.

Clem Buckman, center, traffic safety manager of the Central Gulf Division of the American Automobile Association, presents a plaque to Mayor Warren Carver, right, and Police Chief Douglas Williams, for their city's efforts in pedestrian safety. AAA's annual Pedestrian Safety Inventory program is designed to focus a community's attention on its pedestrian safety records and programs.

### Gulfview school spring festival

The 1977 Gulfview School Spring Festival will be held this Saturday April 16 at the school cafeteria beginning at 3 p.m.

The crowning of the Royalty will take place at 5 p.m. There will be booths, prizes, games, and good things to eat for all. Bring the whole family.

### Pediatric rooms are redecorated

The Bay-Waveland Junior Auxiliary has just completed redecorating the two pediatric rooms at Hancock General Hospital. The rooms were wallpapered to reflect a youthful and attractive decor for the small children who will occupy the rooms. One of the rooms has Raggedy Ann and Andy and the other room has monkeys.

Also, each child will be given bedside bags filled with items (Toothbrush, toothpaste, soap and small items to play with) and the Hancock General Hospital's Lady Auxiliary is helping in the construction of the bags and the Hospital staff will distribute them.

The Pediatric room fix-up is a service project for the Bay Waveland Junior Auxiliary and the project will be beneficial to all of the children entering the hospital.

### Students receive \$100 scholarships

HATTIESBURG -- University of Southern Mississippi Achievement Scholarships of \$100 have been awarded to three students in Bay St. Louis.

Recipients are: Julie Martinovich, daughter of Dr. and Mrs. Andrew K. Martinovich, Jr. who will be studying biological science; Mark J. McCarthy, son of James J. McCarthy will be studying science and technology and Ralph E. Ott, son of Lucius H. Ott will be in pre-medicine.

Last year's Gulfview School Spring Festival, right: Archie Asher, Cindy Lafontaine, Michael Trenchard, Gena Fricke, James Laddner, Brenda Stiglett, Michelle Hosell, Danny Auxilien.

### Pass Christian garden club meets

The Pass Christian Garden Club met at the home of Mrs. Harvey Blankenship at 1:30 p.m. April 7, 1977.

The President extended a warm welcome to guests and prospective members, after which she expressed her deep appreciation of the cooperation she had received from the members during the current fiscal year.

After the routine reports the President called for the Nominating Committee's slate of officers for the coming fiscal year 1977-78. Unanimously elected were Mrs. J. Parnell McKay, President, Mrs. Jean Hammett, 1st Vice President, Mrs. Logal Cline, 2nd Vice President, Mrs. O. B. Trepagnier, Corresponding Secretary, Mrs. Charles Spillman, Recording Secretary, Mrs. Crane P. Fitzwilson, Treasurer, Mrs. William Curran, Parliamentarian, and Mrs. Charles Darrell, Historian.

The President then announced that County Agent Mr. Fleming will be conducting a workshop April 21 and 22nd at Edgewater Plaza from 12 Noon to 9:00 P.M. This clinic on plant problems is free. Also announced was an antique show at Natchez May 10.

The meeting was then turned over to Mrs. Frances Martin and Mrs. Virginia Blankenship for an informative talk about and display of fresh flowers in the home. The emphasis on simplicity was beautifully illustrated by flower arrangements in ever room in Mrs. Blankenship's home. The meeting concluded with the serving of delicious refreshments.

Hostesses for the occasion were: Mrs. Benedict Bourgeois, Mrs. Lionel Bourgeois and Mrs. Perkins. A pink and blue color scheme was employed throughout and the honoree was presented her gifts from a decorated baby crib. Enjoying the celebration were: Mrs. Dot Nicholson and daughter; Mrs. Anthony Russo, Mrs. Melvin Stoltz, Mrs. Pat Miller and Amanda; Mrs. David Garcia and Misses Elizabeth, Theresa, and Mary Garcia; Mrs. Lloyd Garcia, Mrs. Ada Belson, Mrs. Susan Kiehm, Mrs. Chris Nicolosis, Mrs. Louis Bourgeois and Barbara Ann, Mrs. Allison McClellan, Mrs. Linda Bourgeois, Mrs. Richard Bourgeois, and Mrs. Karen Dardar.

### Surprise shower

Mrs. Charles Bourgeois was honored with a surprise baby shower March 30, at the home of Mrs. Diane Perkins on Villere Street, Waveland.

Hostesses for the occasion were: Mrs. Benedict Bourgeois, Mrs. Lionel Bourgeois and Mrs. Perkins. A pink and blue color scheme was employed throughout and the honoree was presented her gifts from a decorated baby crib. Enjoying the celebration were: Mrs. Dot Nicholson and daughter; Mrs. Anthony Russo, Mrs. Melvin Stoltz, Mrs. Pat Miller and Amanda; Mrs. David Garcia and Misses Elizabeth, Theresa, and Mary Garcia; Mrs. Lloyd Garcia, Mrs. Ada Belson, Mrs. Susan Kiehm, Mrs. Chris Nicolosis, Mrs. Louis Bourgeois and Barbara Ann, Mrs. Allison McClellan, Mrs. Linda Bourgeois, Mrs. Richard Bourgeois, and Mrs. Karen Dardar.

## 4-H News

By WILLIAM O. GOODWIN  
EXTENSION 4-H  
YOUTH AGENT

### 4-H'ERS REPORT BREAD MAKING ON UPTREND

Home bread making is on the uptrend. Spurred by renewed interest in the nutritive values of foods, more and more consumers are turning out mouth-watering, nutritious breads in their own kitchens.

Homemade breads, like a deliciously fruit orange rye loaf (see recipe below), supply many of the body's daily requirements for vitamins and minerals.

Nutrition-conscious young people can learn all about bread making in the national 4-H bread program.

In practical projects supervised by the Cooperative Extension Service, 4-H members 9-19 acquire and demonstrate skills in planning, preparing and serving breads and cereals that are both good tasting and good for them.

Boys and girls explore the scientific principles of bread making: how yeast, importance of correct temperatures and difference in flours.

Foreign breads add an international flavor to family meals and snacks as 4-H'ers learn the significance of grain products in diets and cultures around the world.

4-H members can bake their way to honors that include up to four medals per county, one expense-paid trip to National 4-H Congress per state, and six \$800 scholarships at the national level. Awards are donated by Standard Brands and arranged by the National 4-H Service Committee.

Winners are selected by the Extension Service. More information on the 4-H bread program is available from county extension agents.

Easy-to-bake orange rye bread is great as a nutritious toast for breakfast, in sandwiches or for snacking.

### ORANGE RYE BREAD

(Makes 2 loaves)

2 1/2 cups warm water (105 degrees F. - 115 degrees F)  
2 packages active dry yeast  
1/2 cup firmly-packed dark brown sugar  
4 teaspoons salt  
3 tablespoons softened margarine  
3 tablespoons grated orange peel  
1 1/3 cup dark molasses  
3/4 cups unsifted rye flour  
5 1/2 to 6 1/2 cups unsifted white flour

Measure warm water into large warm bowl. Sprinkle in yeast; stir until dissolved. Stir in sugar, salt, margarine, orange peel, molasses and rye flour. Beat until thoroughly blended. Stir in enough white flour to make a stiff dough. Turn out onto lightly floured board; knead until smooth and elastic, about 10 to 12 minutes. Place in greased bowl, turning to grease top. Cover; let rise in warm place, free from draft, until double in bulk, about 1 hour.

Punch dough down; divide in half. Roll each half to a 14 x 9-inch rectangle. Shape into two loaves. Place in 2 greased 9x5x3-inch loaf pans. Cover; let rise in warm place, free from draft, until doubled in bulk, about 1 hour and 10 minutes.

Bake on lowest rack position at 375 degrees F about 40 minutes, or until done. Remove from pans and cool on wire racks.

RESEARCH WINNERS - George M. Ansel (C), student at Warren Central High School in Vicksburg, was chosen Regional Scholarship Winner at the Mississippi Regional Junior Science and Humanities Symposium held recently at The University of Mississippi. He will receive \$2,000 and present his research paper at the national meeting at West Point, N.Y. in May, along with 41 other regional winners competing for five top papers, which will then be presented at the International Science Fair in London, England in August. Dr. Sherwood Githins Jr. (L), director of the national office of the Symposium in Durham, N.C., presented the scholarship to Ansel, and \$100 academic achievement awards to three other winners from Mississippi who will attend the national meeting, Paul K. McLain of Monticello High School; first alternate Valerie Jean Young of Bay Senior High, Bay St. Louis; and Mary Shipp Sanders, Jackson Prep.

## Home Economic Notes

By NORINE BARNES,  
Extension Home  
Economist

### CONSIDER ALTERNATIVES FOR COFFEE

If the price of coffee is taking the lift out of your

consider alternatives.

A cup of regular coffee made with some brands costs about 6 1/2 cents, according to figures prepared by the Agricultural Research Service's Consumer and Food Economics Institute. A cup made from less expensive brands costs about 5 cents, and a cup of instant coffee costs less than 2 1/2 cents.

If consumers are willing to switch to tea, they can cut costs further. Tea costs less than 1 1/2 cents a cup, depending on how you make it.

The cost of coffee has almost doubled in the past year, increasing by as much as \$1.46 per pound in some areas. The majority of adults drink coffee every day.

Even with inflated prices, most people are likely to drink coffee. But there are things they can do to hold down the cost. They can also switch to beverages that cost more, but provide nutrients that a cup of black coffee will not.

For those who intend to continue drinking coffee, here are a few recommendations: Avoid wasting it. Brew only as much as you will drink. Try making coffee a little weaker than usual. You may like it just as well.

Compare brand prices. Use regular instant coffee. Per cup of beverage, it costs only half as much as ground and less than freeze-dried coffee, too.

Compare the unit prices (cost per ounce or per pound) of different sized cans and jars

of coffee to find the best buys. Unit prices are shown on the shelves in many supermarkets. To figure costs, they divide the price per unit by the

of six-ounce cups the unit will yield. For example, a pound of regular coffee will make 50 cups of coffee on the average. At \$3.19 a pound, a cup of coffee costs 6.4 cents.

For those who are reducing coffee intake and trying another beverage:

Drink tea or a cereal beverage at one-third or one-half the cost of coffee. You can save more money by making tea with loose tea leaves or instant tea instead of tea bags.

Use bouillon occasionally, unless you are on a low-salt diet. Drink milk made from nonfat dry milk powder. It costs less than coffee.

Unlike coffee, it provides important nutrients - calcium, protein, riboflavin and many others. A six-ounce cup of milk made from nonfat powder provides about 70 calories. Coffee, without milk and sugar added, provides essentially no calories.

Use hot chocolate made from a home recipe or a commercial mix. It costs a little more than coffee, but furnishes the nutrients of milk as well as some iron from the cocoa. A six-ounce cup provides about 140 calories.

TIPS ABOUT THREAD TO MAKE SEWING EASIER

A seamstress' choice of thread influences the difficulty she may encounter

when making a garment. Following are thread tips which make sewing easier: Check your thread on spools to be sure it is the right size for the fabric.

Select a color slightly darker than the fabric; when stitched, threads look lighter.

Use a contrasting color for hand basting.

Use both colors of a check or plaid - one for the top and the other for the bobbin.

For easy threading, place something white behind the needle eye. Cut thread on a slant, and never break or bite the thread.

When sewing by hand, use a short length, about 20 inches. Don't use a double thread; it tangles easily.

Select a needle with an eye large enough for the thread to pass through easily.

Insert the thread end cut from the spool into needle eye and knot.

Pull first stitch into a fold to conceal the knot.

If thread breaks when sewing on machine, the needle point may be rough. Try a new needle.

Pull both the top and bobbin threads to back of presser foot before stitching.

Wind the thread evenly on an empty bobbin.

For perfectly balanced stitch use identical type thread for both top threading and bobbin.

Fasten loose ends of thread to spool with cellophane tape to prevent tangling.

## Coming Events

Busy Fingers' Extension Homemakers Club will meet at 9:45 a.m. Tuesday, April 19, in extension auditorium. Leroy Modenbach of Goodwill Industries will be guest speaker. All members are asked to attend.

Mrs. Norine Barnes, extension home economist, will conduct the bread and dough art program Monday, April 18, at American Legion hall, Necaise Crossing. Everyone is invited.

A trash to treasure program will be presented by Mrs. Norine Barnes, extension home economist, at 10 a.m. Tuesday, April 19, at Flat Top Community Center. Everyone is invited.

A trash to treasure program will be presented by Mrs. Norine Barnes, extension home economist, at 10 a.m. Tuesday, April 19, at Flat Top Community Center. Everyone is invited.

The second lesson of the Sew with Knits series, will be given by Mrs. Norine Barnes at 10 a.m. Friday, April 22, in extension auditorium, Necaise Avenue. Anyone who wants to attend is asked to call 467-5456.

The monthly adult Saints and Sinners dance will be held in St. Clare's Parish hall, Waveland, Saturday, April 23, from 9 p.m. to 1 a.m. Music will be by the Dixieland Saints Jazz Band of New Orleans. Further information is available by calling Rose Garza at 467-5088 or Clarisse Villere, Villere's Lounge.

Marine Private First Class Nolan C. Bryant, son of Mrs. Lovie L. Barbeta of Rt. 3, Box 414, Indian Ave., Bay St. Louis, has completed the Basic Helicopter Course.

The six-week course was conducted at the Naval Air Technical Training Center, Millington, Tenn. Students received instruction on the operation of helicopters and studied mechanic training, the theory of rotary-winged flight and power plant principles. In addition, Bryant underwent five days of practical application on transmission systems, flight controls and general helicopter maintenance.

A 1976 graduate of Bay Senior High School, he joined the Marine Corps in September 1976.

## IN CASH PRIZES

### WIN UP TO \$1,000!

1. Get a FREE Bingo Bucks Master Card on request at the end of the checkout or at store office. Get one FREE Game Ticket every time you visit a participating National Supermarket. Game materials may also be obtained by making request to Bingo Bucks, NO. 24700 Northwestern Highway, Suite 601, Southfield, Michigan 48075. One request per envelope. No purchase necessary to participate. Adults only eligible to play.
2. On each Game Ticket there are four Bingo Bucks Markers. To reveal the Markers, simply punch out the perforated portion of the Game Ticket, then separate the punched out portions and you will have four Markers. Each Marker corresponds to a square in one of the Games on your Master Game Card.
3. When you have revealed the Bingo Bucks Markers, carefully place them in their appropriate squares on your Master Game Card. **EXAMPLE:** If one of your Game markers is a G 53 in the 12 Game, insert that marker in the square numbered G 53 in the 12 Game. When you complete any row in a game, you may have a winner. In some games, you will find squares marked FREE and it is unnecessary to collect a marker to be placed in such FREE squares. FREE squares are not transferable.
4. When you have a winning card which has been verified by authorized personnel, you will, after furnishing your name and address, be awarded your prize. A Federal Trade Commission rule requires that the names and addresses of all winners be posted in all participating stores. When turning in your winning card at your Bingo Bucks Markers which are not part of the winning row may be removed and transferred to a new card. Only one prize will be awarded per game on any one Master Game Card. All Bingo Bucks Markers in a winning row must be marked on the back by the customer in the presence of authorized personnel. Tax liability on prizes is the responsibility of the prize winner.
5. All game materials will be rejected and voided if not obtained from and verified by authorized personnel or if any part of any of the game pieces is illegible, altered, mutilated, discolored, tampered with, forged, contains printing or other errors, or is irregular in any way. Game material void where taxed or prohibited by law.
6. Game will end upon distribution of all Game Tickets. All prizes must be claimed within five (5) days after announcement of termination or they are forfeited. Notwithstanding anything herein to the contrary, at such times as the verified claims for prizes in any category equals the number of prizes advertised for that category then the game as it relates to that specific prize category shall immediately terminate without notice, and any unverified claims at or after that time shall be automatically rejected.
7. Game materials valid only for this game. All Game Tickets, Bingo Bucks Markers and Game Cards must have the same serial number. **EXAMPLE:** If you have Master Game Card Series No. 27, all of your game pieces must have Series No. 27.
8. Employees (and their I.R.S. listed dependents) of the National Tea Company, National Supermarkets, Outlets Association, their advertising agency, and any other companies engaged in the development and production of these game materials are not eligible to win.

9. Bingo Bucks Marker void if it does not have on it:  
(a) Bingo Bucks symbol  
(b) Bingo symbol  
(c) Value of game  
(d) Bingo symbol specified out  
(e) Series No. 27  
(f) Safety pattern background
10. Bingo Bucks Series No. 27 Marker must conform in size, shape and detail to the examples illustrated above and must contain the six (6) items of authorization described in Rule No. 9.

## Telephone pioneers are Heart volunteers

Some 300,000 Mississippians have high blood pressure. 150,000 of them don't know it because it often has no symptoms. Of those who have it, only one in eight has the disease under adequate control. Left untreated, high blood pressure can result in stroke, kidney failure or heart attack.

What can you do to help range these statistics? You can have your blood pressure checked. It can be detected only through measurement. High blood pressure can be treated and controlled and the risk of serious disease lowered.

The Mississippi Chapter, Telephone Pioneers of America and its 3,200 members are joining hands

with the Mississippi Heart Association in the statewide High Blood Pressure Detection Program. Sphygmometers, automated equipment, have been purchased and donated by the Mississippi Chapter.

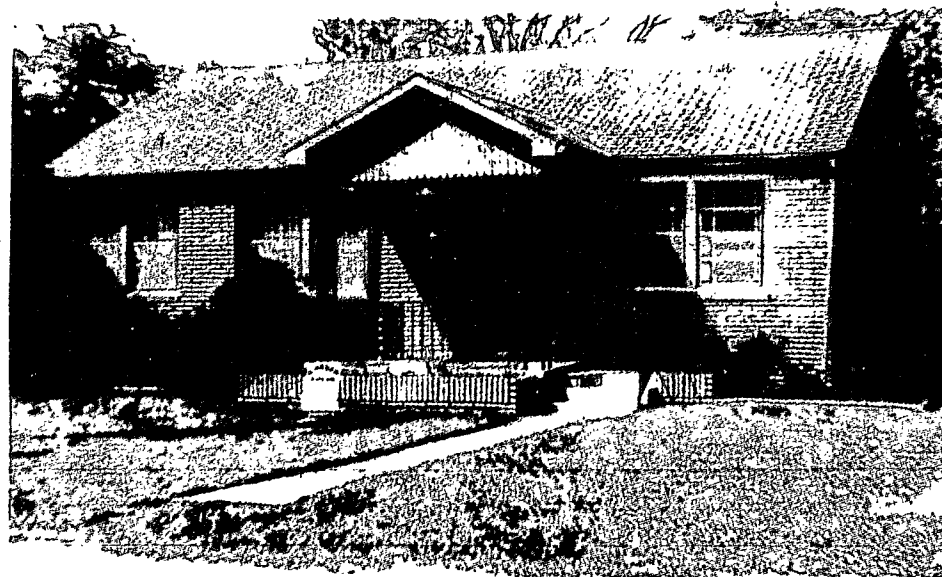

The Harrison County Heart Association in a joint effort with the state Heart Association is conducting a seminar to train Telephone Pioneers to measure blood pressure by Sphygmometers at the telephone company Edgewater Office. Instruction and demonstrations were presented to the volunteers, followed by practice in measuring blood pressures.

After training, Telephone Pioneer volunteers will be able to help the Heart

Association in their effort to screen for high blood pressure in this area.

Conducting the seminar were Dr. Harry Schmidt, Jr.; Mrs. Jo Kennedy - Staff Consultant; Mr. Carter Carroll - Blood Pressure Implementor and Miss Enola Jermyn - Volunteer-R.N.-B.S.

Pioneers attending the seminar were: from Pascagoula - Ann Davis, Nell Stevens; from Biloxi - Marjorie Watson, Minnie McNeese, Mary Hodges, Charli Byrd; from Long Beach - Dolores Currie, Martha O'Donnell, Jean King, Sybil Fayard; from Bay St. Louis - Myrtle Flinn; from Gulfport - Wanda White, Melba Stuart, Mattie McMin, Geraldine Bobinger; Edgewater - Diane Thornton.

The Bay Waveland Garden Club honored the home of Mr. and Mrs. P.E. McGinty of 307 DeMontluzin in the Bay as having the garden of the month for the city of Bay St. Louis. (Echo photo by son-in-law R. Ponder)

### Easter Vigil Mass

### Sees Four Baptized

Four children of Mr. and Mrs. Francis Peneguy of 901 Spanish Acres Drive, Bay St. Louis, were baptized during Easter Mass on Saturday at Our Lady of the Gulf Catholic Church.

In a candle light service children baptized were: Richard Thomas, 14; Lisa Katherine, 11; Eugene Francis, 7; Sean Michael, 4. Godparents were Janet and Gus Aime of Ulman Ave. Msgr. Gregory Johnson officiated.

## who's new

To Mr. and Mrs. Ronnie Murray, a daughter, Kellie Michelle, born April 7, weighing 7 pounds, at Crosby Memorial Hospital, Picayune. The mother is the former

Marietta Wyman, daughter of Mr. and Mrs. C.J. Wyman of Pearlinton. Paternal grandparents are Mr. and Mrs. Don Murray of Bay St. Louis.

### news

#### St. Clare's

#### in brief

Senior field day at St. Clare's School will be April 16 starting at 9 a.m.

Registration for new students at St. Clare's School will be held April 18 and 19 from 9 a.m. to 3 p.m.

New students will be fitted for uniforms April 20.

The Hancock County Kiwanis Club will meet this morning at 7 a.m. at the Waveland Resort Inn on Hwy. 90. County Ronnie will give a speech on Narcotic Traffic and Alcohol among our teenage youth in the Bay Waveland Area and in Hancock County and what the department is doing to help to put an end to the problem.

## Historians to Hear Archives Director

Dr. Elbert Riley Hilliard, Director of the Mississippi Department of History and Archives, will speak to the Hancock County Historical Society on Monday evening, April 18, at 7:30 p.m. in the Crawford Room of the City-County Public Library.

Accompanying Dr. Hilliard to Bay St. Louis will be Mr. Bagley, Historian of the State Archives, and they will present a program designed to show local residents the importance of the Archives to all citizens, and how they may be utilized by everyone. Slides will be part of the program.

DR. ELBERT HILLIARD

### News from St. Ann's

St. Ann's Altar Society met April 5 in St. Ann's Parish Hall with Mrs. Davis Caillier, president, conducting the business session.

Mrs. Caillier appointed Mrs. Vivian Moffett chairman for the luncheon and social scheduled for Wednesday, April 27, in Parish Hall. The next meeting will be May 3.

Mrs. Vivian Moffett, St. Ann's Altar Society Easter cake sale chairman, wants to thank all who helped.

St. Ann's CYO members and all who contributed to the success of the sale.

A meeting for St. Ann and St. John's annual parish fair workers will be held at 7 p.m. April 18 in St. Ann's parish hall.

All workers are asked to attend as plans for the pre-fair meal and spaghetti supper to be held Saturday, April 23, after the 5 p.m. Mass will be discussed.

Rev. Canisius Hayes, pastor, announced chairman for the annual parish fair to be held June 17, 18 and 19 will be Mr. and Mrs. Gerald Boos and Mr. and Mrs. John Everard of St. Ann's Parish and Mrs. Linda Curet and Mark Blackledge, St. John's Parish.

Parents of Gulfview School students, grades 1 through 6, who have not contacted Sister Daniel Elizabeth concerning religion classes, are asked to do so as soon as possible.

### Kite Workshop to Lift-off Today

Would you like to brush up your skills at making kites, or learn how for the first time? Interested students in the 3rd, 4th, 5th and 6th grades in all local schools are invited to attend the Kite Workshop at the City-County Library on April 14th, Thursday at 4 p.m. Your instructor will be Brother Elbert of St. Stanislaus and all supplies will be provided for you. All we ask is that you come visit the library and have a good time. Awards will be presented on the following Thursday for the best kites.

### Good Homes Needed For Free Puppies

Bay-Waveland Humane Society, Inc., has a Catahoula puppy, a mixed Doberman puppy, a dachshund puppy and a Maltese cat and kitten in need of homes.

Further information is available by calling 467-7173 or 467-9494.

Plentiful meat supplies, particularly in the first part of the year, are forecast for 1977.

PARKING: Will not be allowed on the Library grounds this day and we ask co-operation from all participants. Remember this event is for adults and

### 1st Grade pre-registration

Students entering North Bay or Waveland Elementary Schools for the coming school year, 1977-78, are urged to pre-register in the offices of the respective schools. This includes first graders entering school for the first time and transfer students in other grades.

Parents are reminded that Mississippi law requires a beginning first grader to be six years of age by December first. Parents are also reminded that students who live in the Bay St. Louis corporate limits must pre-register at North Bay Elementary School on Dunbar Avenue, while students living in the Waveland city limits must pre-register at Waveland Elementary School on St. Joseph Street.

Parents may come by the office of either school during the hours of 9:00 a.m. to 2:00 p.m. to complete the necessary registration forms. This pre-registration period will run from April 18th through April 29th.

There will be one additional day for pre-registration on May 13th, for anyone who fails to register during the above dates.

First graders will need a certified birth certificate and

an immunization record. Parents are urged to make every effort to see that their children are pre-registered for the coming year.

Again, it must be emphasized that this pre-registration is only for beginning first graders and transfer students.

### Military Mention

April 6 - Navy Personnelman Seaman Apprentice David W. Depreo, son of Mr. and Mrs. Eido H. Depreo Sr. of 225 Nicholson Ave., Waveland, Miss., participated in the U.S. Sixth Fleet operation "National Week XXII."

He is a crewmember aboard the guided missile cruiser USS Richmond K. Turner, homeported in Norfolk, Va. "National Week XXII" was an eighty-day exercise involving more than 30 Sixth Fleet ships, 18 aircraft squadrons and a Marine battalion landing team. The exercise included simulated combat operations, emphasizing antisubmarine and air defense, amphibious warfare and logistics support elements at sea.

The exercise took place in the Tyrrhenian and Ionian Seas, near Sicily. He joined the Navy in July 1975.

**INSUR-MATION**  
- 255-113 KILN  
FARM BUREAU INSURANCE - HWY. 603 JAMES RESTER

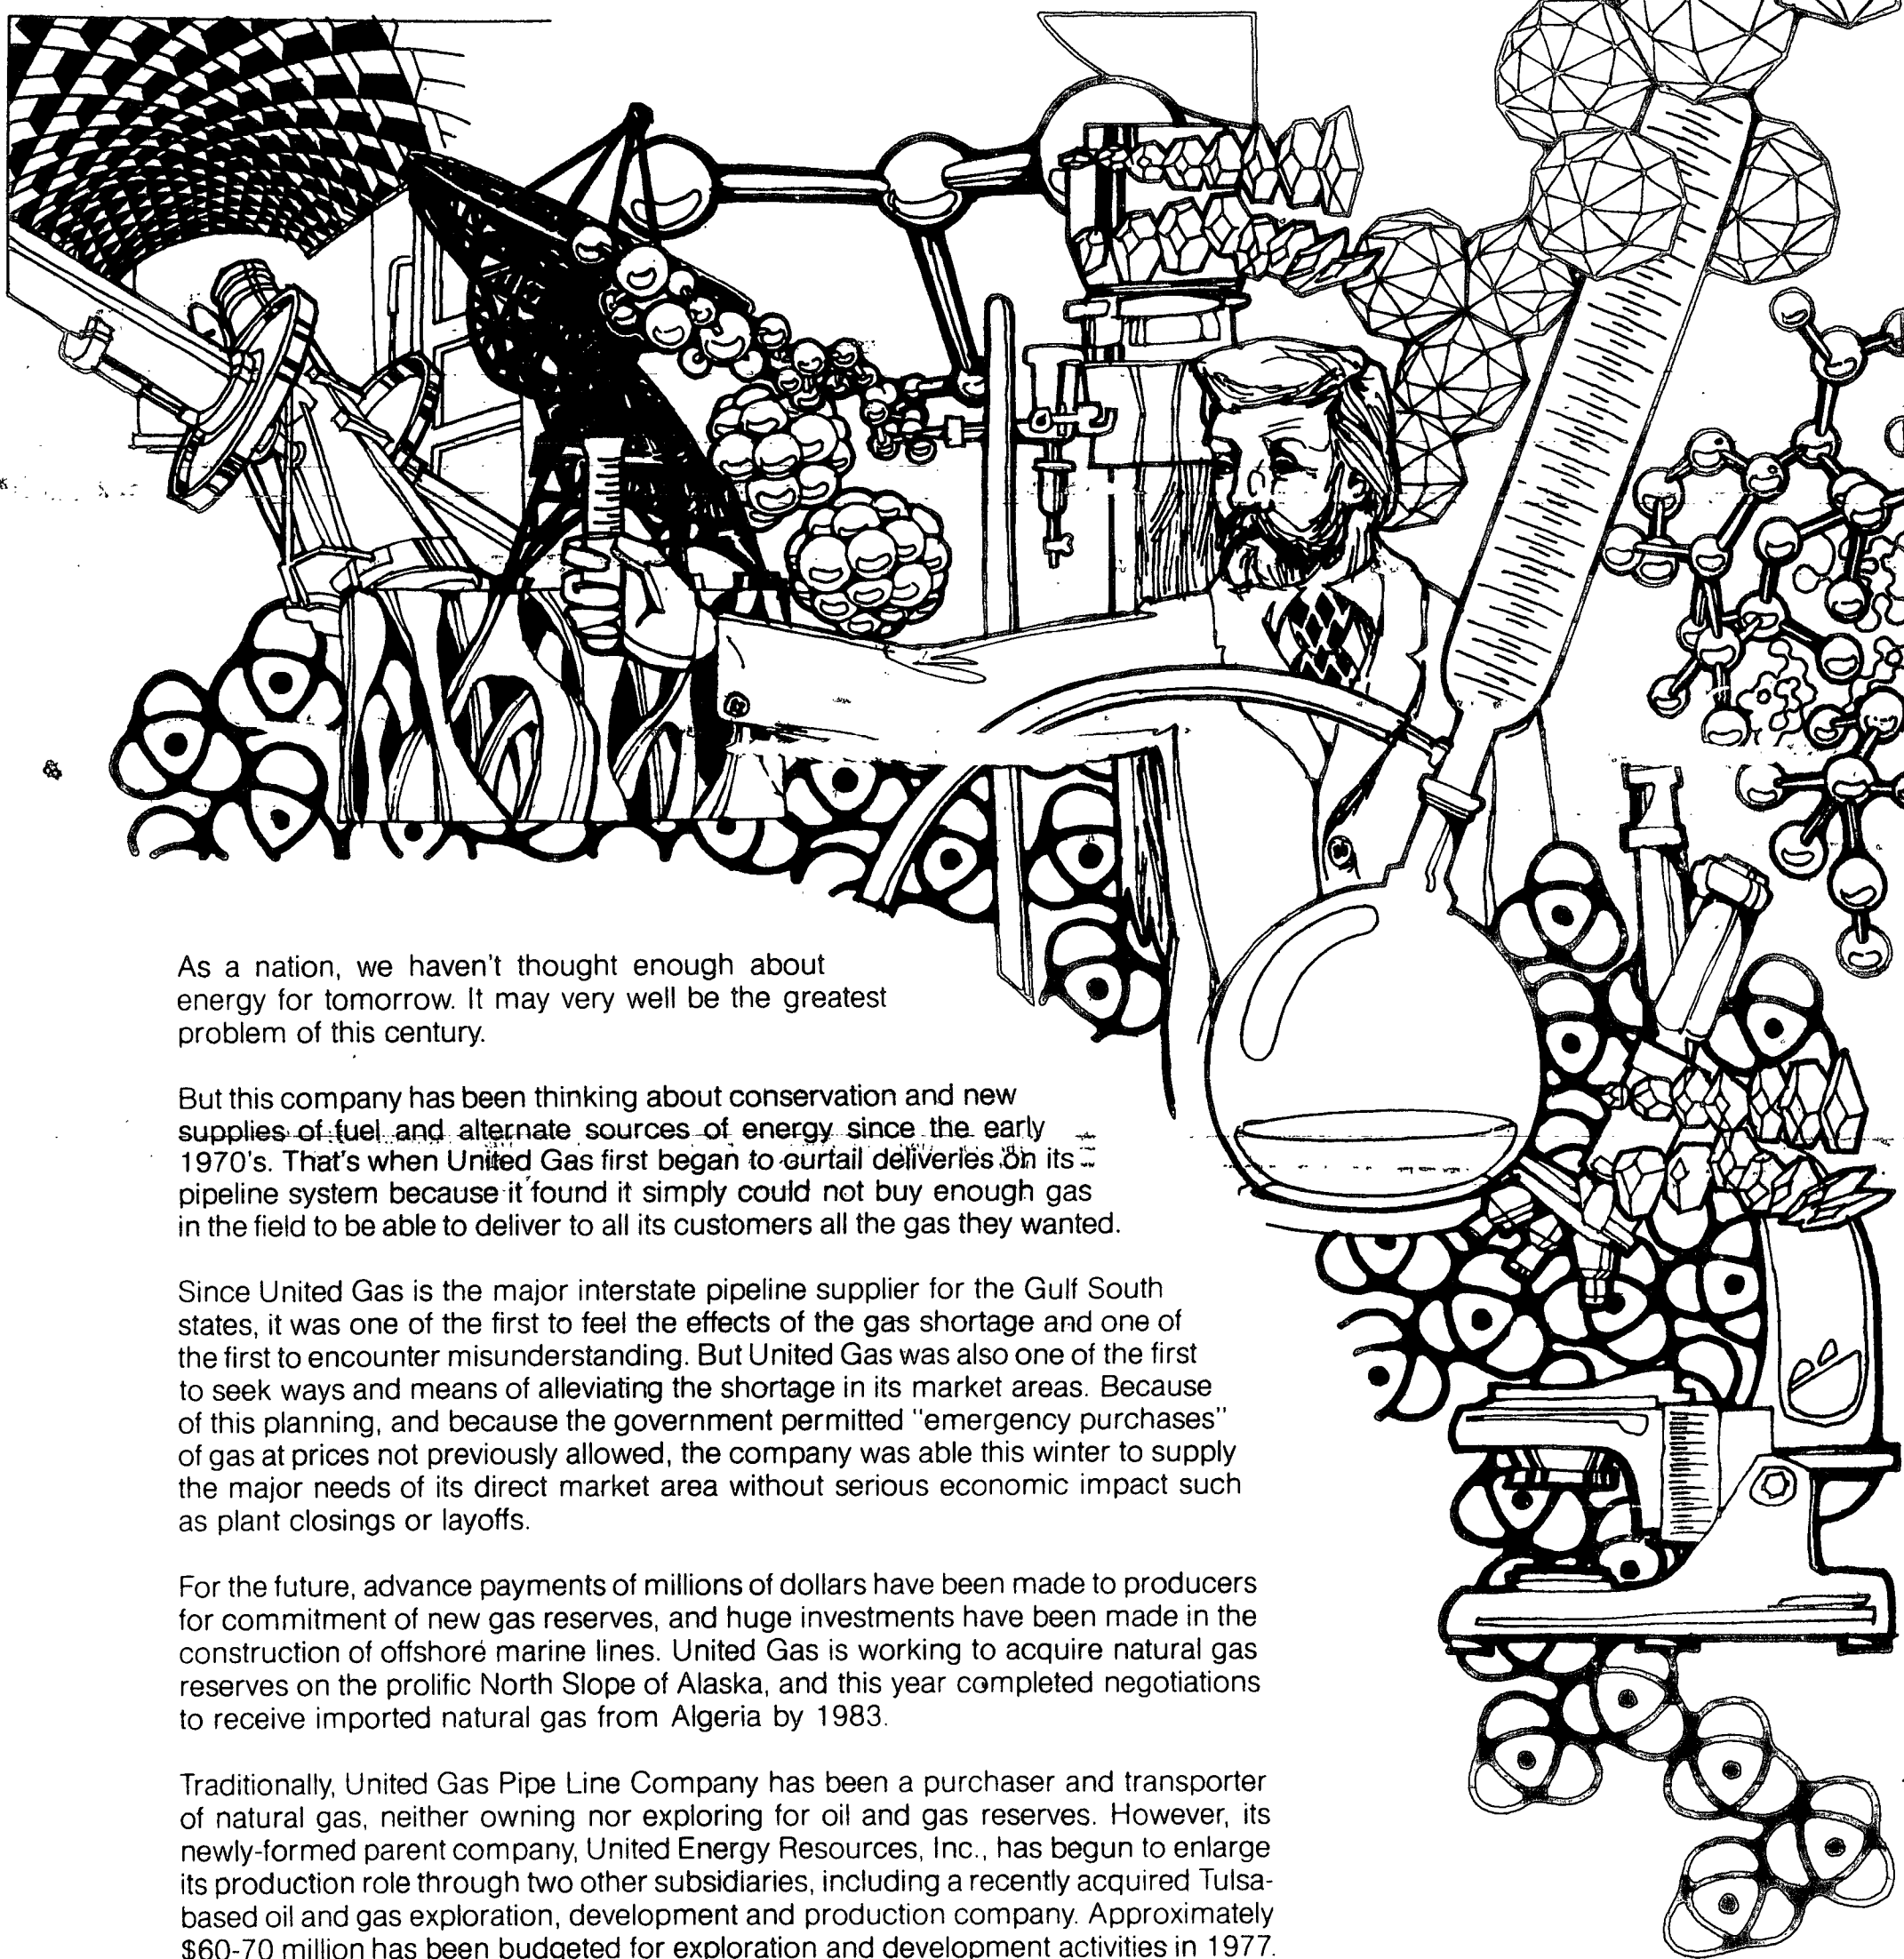

How is the cash value of my insurance policy determined?

Cash value in a life insurance policy accumulates as the premiums are paid into the policy. The accumulation is the reserve... equity... which builds in your policy over the years. A policy on which you would pay the premiums in 20 years will usually have a more rapid accumulation than one on which you pay premiums to age 65 or for life. You can borrow the full accumulated cash value. For example: Your cash value has accumulated to \$1,000 and your contractual interest rate on the policy loan is 5%... the interest for your loan of \$1,000 would be \$50.00. This interest will come due on the anniversary date of your policy each year until you have repaid the loan.

# Nature is telling us: It's time to think about tomorrow

As a nation, we haven't thought enough about energy for tomorrow. It may very well be the greatest problem of this century.

But this company has been thinking about conservation and new supplies of fuel and alternate sources of energy since the early 1970's. That's when United Gas first began to curtail deliveries on its pipeline system because it found it simply could not buy enough gas in the field to be able to deliver to all its customers all the gas they wanted.

Since United Gas is the major interstate pipeline supplier for the Gulf South states, it was one of the first to feel the effects of the gas shortage and one of the first to encounter misunderstanding. But United Gas was also one of the first to seek ways and means of alleviating the shortage in its market areas. Because of this planning, and because the government permitted "emergency purchases" of gas at prices not previously allowed, the company was able this winter to supply the major needs of its direct market area without serious economic impact such as plant closings or layoffs.

For the future, advance payments of millions of dollars have been made to producers for commitment of new gas reserves, and huge investments have been made in the construction of offshore marine lines. United Gas is working to acquire natural gas reserves on the prolific North Slope of Alaska, and this year completed negotiations to receive imported natural gas from Algeria by 1983.

Traditionally, United Gas Pipe Line Company has been a purchaser and transporter of natural gas, neither owning nor exploring for oil and gas reserves. However, its newly-formed parent company, United Energy Resources, Inc., has begun to enlarge its production role through two other subsidiaries, including a recently acquired Tulsa-based oil and gas exploration, development and production company. Approximately \$60-70 million has been budgeted for exploration and development activities in 1977.

More than this, the United Resources Companies are investigating the transportation of coal slurry by pipeline, the use of solar and geothermal energy, and even the use of water hyacinths and municipal wastes as organic material for the manufacture of gas. The future requires that the national supplies of natural gas be supplemented by new energy sources.

For more than 40 years United Gas has been delivering significant quantities of natural gas to the Gulf South, and will continue its best efforts in this endeavor.

This is a task in which you can help. Conserve this vital resource, whenever you can, wherever you can. With care and efficient usage, the natural gas of America will last well into the next century.
